

# FIND LOCAL HEALTH SERVICES & RESOURCES

For primary care and non-emergencies, contact your family doctor or nurse practitioner first. They can guide you to the right care — during office hours, after hours, or on weekends. Call or check their website. Many have online booking for non-urgent issues. Find their info and more local resources at: [guelphwellingtonoht.com/community-services-and-resources](http://guelphwellingtonoht.com/community-services-and-resources)

**Can't Get an Appointment or Don't have a Doctor or Nurse Practitioner?**  
**To Avoid Unnecessary ER Visits and Long Waits, Consider an Urgent Care Clinic or Walk In.**  
Don't have a primary care doctor or nurse practitioner? Register for *Health Care Connect* with your Ontario Health Card to be connected to a local doctor or nurse practitioner.

## WALK IN CLINICS

Reminder, many doctors, nurse practitioners and family health teams have after hours support even if they are unavailable. Check there first. If needed here is a list of walk ins:
