

## ***The Rebirth 2027***

**WORD-SOUND-ART-DEED For Creative Generations, The "Likeness-Bearers"**

### ***About Us & Why We Are Here, Rebirthing Now***

---

#### **Who We Are**

Creative Works of Louisiana exist to encourage self-expression, identity, and natural ability in every generation — helping people discover and develop the one thing that makes them feel alive: their art, their craft, their gift. We believe we are made in the likeness of a Grand Creator who puts a deposit of creativity within each of us. We want to develop Creative Generations as "Likeness Bearers" and help them make an income doing what they flow in and love.

#### **Our Mission**

Creative Works of Louisiana is a creative agency built on WORD, SOUND, ART, and DEED, paired with Digital Presence Marketing Management, Traditional Print Media, and Graphic Design — helping individuals and businesses grow their online presence, increase sales, and build awareness. We develop one's gift of creativity, made in the likeness of our Creator, by putting tools in people's hands, teaching the lessons that sharpen their craft, and giving them a platform — and an opportunity to earn an income from it — that they may not have had before.

#### **What We Do**

- Digital Presence Marketing Management — website and social media management for businesses and individuals
- Spoken Word, poetry, and writing classes
- Music creation, singing, and recording
- Woodworking, guitar-making, and craft arts
- Painting, visual art, printing, and graphic design
- Community events for creative expression, release, and healing through creativity

#### **Why We Do This**

We do this for Creative Generations — Likeness-Bearers of our Creator. One generation commends His works to another. We believe every generation, young and old, carries a gift worth developing and a story worth telling — and that too many have been overlooked, underserved, or written off before ever being given the platform to show what they carry.

For our elders, who may not have been encouraged to express their own creativity growing up: we offer events and communities that say, ***eXPress Yourself***. For the generations coming up behind them: we offer tools, training, and real opportunity — not just to create, but to build an income doing what they love.

We feel obligated to build something for the next generations, to help them know they can naturally create and enjoy what they do — and not get further lost in the digital landscape we live in today.

*"For the Lord is good and his love endures forever; his faithfulness continues through all generations." — Psalm 100:5*

#### **Our Foundation**

The roots of this work go back to 2016–2017, with "Loud in the Library" and other spoken word events, the "Reality Chronicles" poetry slam, open mic, music, and DEED programming with Tipitina's Foundation and the Ouachita Parish Library's Ollie Burns Branch. The Rebirth 2027 grows from that same seed — one that actually began in 1992 with Iberia Desktop Publishing — stronger and more intentional today.
