**(vi) Institutional set-up for liquidity risk management**

In order to ensure a sound and robust liquidity risk management system, the Board of the CFL has a liquidity risk management framework, which ensures that it maintains sufficient liquidity, including a cushion of unencumbered high-quality liquid assets to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources.

The Company has a sound process for identifying, measuring, monitoring and controlling liquidity risk and has adequate liquidity risk tolerance that is appropriate for its business strategy and its role in the financial system.

The Asset Liability Management Committee ensures adherence to the risk tolerance/limits set by the Board as well as implementing the liquidity risk management strategy

The Risk Management Committee monitors and measures the Company's risk profile, including liquidity risk.

The Company has established processes for identifying, measuring, monitoring, and controlling liquidity risk, which are integrated with its overall risk management and strategic decision-making framework.
