# Who we are

Domain was founded in February 2003 by a group of IT - experienced and competent experts who had previously worked for and managed top organizations in Egypt's IT industry.

Domain ITSP is the authorized distributor for a wide range of well-known network security and IT accessory products.

Domain incorporated that training into its goods and became an authorized distributor of TP-Link products, offering networking solutions through SOHO and SMB devices.

Within the security solutions Domain is an authorized distributor of Tiandy security IP cameras and NVRs.

Domain's products enable it to give comprehensive solutions to several big enterprises, businesses, and data centers.

Domain has expanded its offering with new IT accessories from HDPlus, Rapoo, VIGI, Hiksemi, Ezviz, Ugreen, Mercusys, and Tapo.

HDPlus offers network solutions for racks.

Rapoo manufactures high-quality mouse, keyboards, power banks, and Bluetooth headphones.

VIGI Subsidiary of TP-Link offers a diverse variety of IP security cameras.

Hiksemi offers high-quality storage products and solutions, such as flash memory and memory cards.

Hikvision subsidiary Ezviz provides smart home gadgets such as internet cameras and alarm systems.

Ugreen To be user-centered, truthful, and committed to breakthrough technologies.

Mercusys Subsidiary of TP-Link offers networking solutions through SOHO and SMB devices.

Tapo Subsidiary from TP-Link is a smart home gadget equipped with cutting-edge technology and dependable craftsmanship.

Domain increased its distribution efforts by welcoming these six new members into its family.

has established itself as one of Egypt's leading distributors of accessories in both the retail and channel industries.

# Our Vision

We consider the customer rights to have a wide variety of products, with the highest quality, ensured warranty and after sale service.

From that prospective Domain started working in the field of distributing networking products, Computer accessories and security products with the highest quality of goods and service.

We are looking forward not only to maintain our position in the market but to expand more and become the No.1 distributor in Egypt.

# Our Mission

Our objective is to provide best-in-class items of the finest quality and after-sales support with an extended guarantee. We achieve customer satisfaction by delivering items and following up with our clients through our team of technical engineers and salespeople. Delivering value to clients drives all we do. Domain believes that it is the customer's right to obtain the most value from their product, or the services he requests from there, our R&D staff guarantees that we are constantly up to speed on any new client demands, which is why our goods reach over 50 million people in Egypt.

# Our Strategy

Our approach to customer success is the reason we work, and that's starts with our employees, who are the finest in the business. With the help of our team of outstanding account managers, we constantly make sure that our customers feel like they are a part of our business, prioritize the win-win scenario, and guarantee that we satisfy their expectations and offer them whatever assistance they require.

At Domain, we're committed to making sure each and every customer is satisfied.

Our highly qualified IT staff members are renowned for their creativity, adaptability, and reactivity.

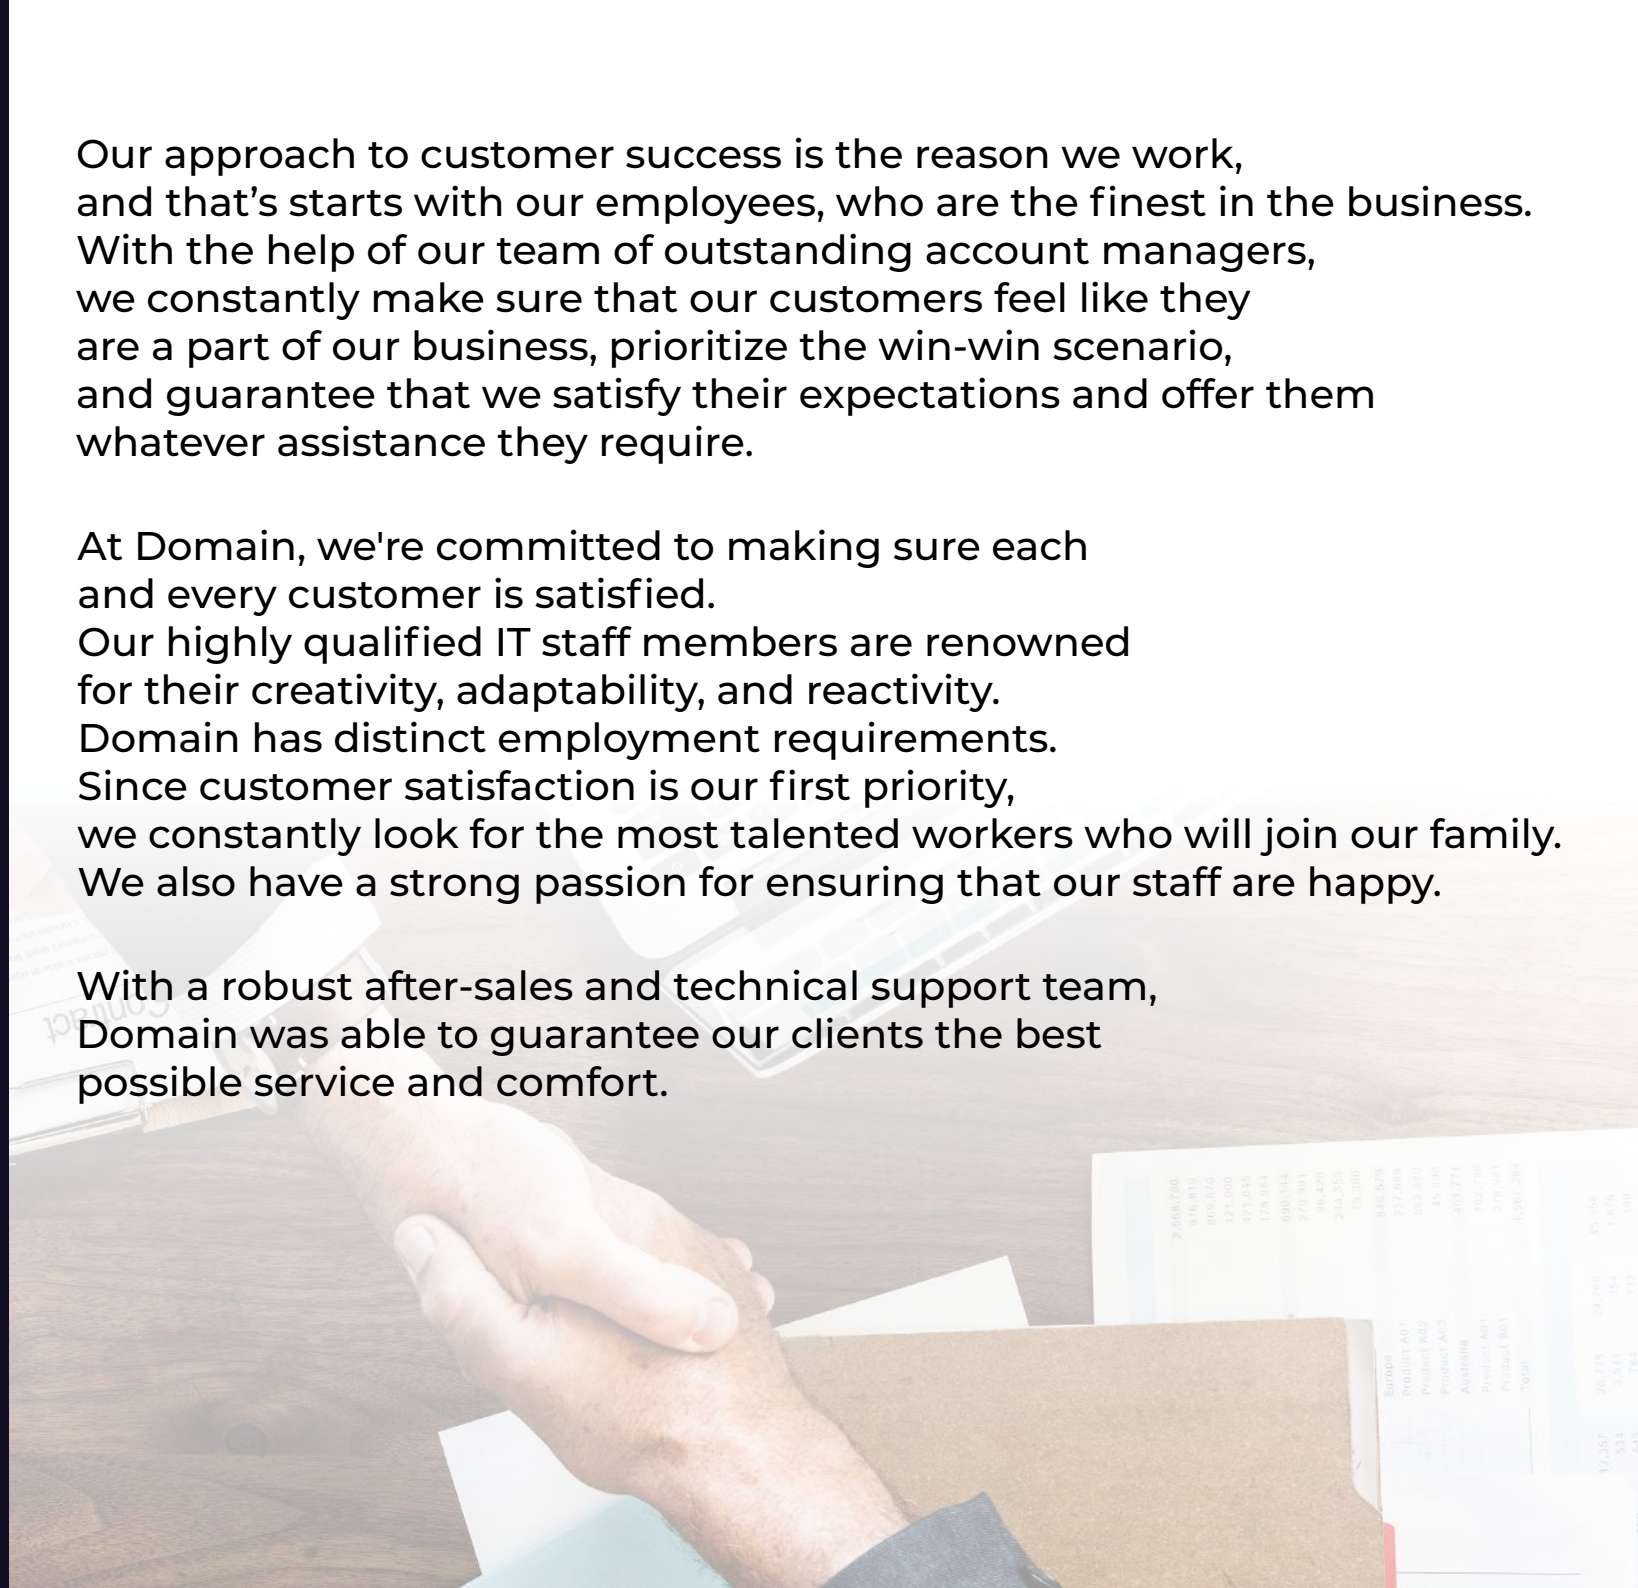

Domain has distinct employment requirements.

Since customer satisfaction is our first priority,

we constantly look for the most talented workers who will join our family.

We also have a strong passion for ensuring that our staff are happy.

With a robust after-sales and technical support team, Domain was able to guarantee our clients the best possible service and comfort.

# What We Do!

We supply networking and accessory items to the retail & channel sectors, making us one of the most powerful IT distributors in the Egyptian industry.

## **Hardware Distribution & Retail:**

Domain may provide the hardware and equipment necessary for Internet provisioning services in Egypt. We was able to expand its customer base and create strong countrywide distribution networks by offering a diverse selection of networking equipment.

And, by cooperating with several partners and channels, we ensured that our items were delivered to every area in the country. Domain was also able to begin developing its firm in the SMB (small and medium business) sector by focusing on big bids to cover and provide full solutions for security and networking systems. We've added from Merusys, Tapo, VIGI, Hiksemi, Dahua & Imou to our inventory.

## **Research & Development:**

To keep ahead of the competition and maintain our leading market position, Domain continually performs extensive market research to stay current on developing trends & solve customer concerns.

## **Customer service and after-sales services:**

Attention to customers is critical to the success of any business. Domain focuses great customer service, showing our strong commitment to this idea. and an after-service team to ensure that customers are completely happy.

# Our Clients

**Our clients** are the key drivers of our success,  
They have made the domain one of the biggest Distributors in Egypt,  
Domain, and its partners are always working together,  
We distribute our products to **over 50 M** Egyptians  
throughout 27 governorates.

# Our Partners

 tp-link |  VIGI  tapo  MERCUSYS®  Omada

 ***dahua***  imou  rapoo  UGREEN  ***HIKSEMI***

It is a privilege for our company to partner with leading networking, security, and technology firms like TP Link, Tapo, ViGi, Mercusys, and Omada.

Hiksemi, ugreen, imou, rapoo, and dahua.

These collaborations enable us to provide creative, superior solutions that satisfy the various demands of our clients, ranging from sophisticated networking systems to cutting-edge consumer technology goods.

Together, we offer tested performance, dependability, and innovative solutions that propel success in the modern digital environment.

# TP-Link

## About TP-Link:

Founded in 1996, TP-Link is a global provider of reliable networking devices and accessories involved in all aspects of everyday life.

We have been ranked as the No. 1 provider of WiFi devices for ten consecutive years\*.

TP-Link has provided networking services to telecommunications carriers, enterprises, and consumers in more than 170 countries.

Aginet is TP-Link's sub-brand dedicated to supporting Internet Service Providers (ISPs).

It is committed to providing flexible products, agile and pragmatic solutions, and incomparable services. Aginet provides the best cost-performance ratio with a wide range of carrier-grade products for high-speed broadband connectivity and home WiFi coverage.

Our after-sales services network covers more than 100 countries/regions, which guarantees quick and convenient technical service capability.

Based on the independent research and development experience of TP-Link over 25 years, Aginet is constantly improving to create more value and agility for all the Service Providers.

Aginet stems from TP-Link's commitment to offering a highly agile network solution to service providers to match their ever-changing markets.

This symbolizes the necessity for a holistic system that relies on trustworthiness and flexible cooperation.

The logo's straightforward and impactful visualization stresses Aginet's three core concepts: professionalism, agility, and reliability.

We believe that the Aginet and Providers combine together to be the No. 1.

# VIGI

# VIGI

## About VIGI:

VIGI is devoted to ensuring the safety of your business with reliable products and professional solutions.

TP-Link created VIGI to develop its business overseas in the video surveillance market. Based on TP-Link's rich experience in the domestic surveillance and global networking markets, VIGI has gained trust from distributors and customers, and has supplied products and services to more than 36 countries and regions.

VIGI comes from "Vigilance", which denotes constant awareness and alertness necessary to secure premises.

The name demonstrates our commitment to providing continuous, structured watchfulness with a professional and reliable security approach.

VIGI is standing on the shoulders of TP-Link, always moving forward. Intelligent functions and world-class support combine to protect your business.

# Mercusys

**MERCUSYS**

## **About Mercusys:**

We strive to offer excellent internet access to as many people as possible. We believe that, in an increasingly connected world, everyone should have access to the tremendous wealth of information and entertainment that is available today.

Mercusys is committed to being your trusted partner and broadening your horizons to include the infinite potential for valuable human connections that the internet provides.

Mercusys specializes in providing the essential devices that form the backbone of your connected life. A wide and steadily growing array of Wi-Fi routers, Wi-Fi adapters, repeaters, access points, and SOHO switches help you get the most out of your internet connection and turn your home or small office into a thriving epicenter of connectivity.

Our philosophy emphasizes the central role of research and development in creating products that have the power to improve daily life. Mercusys is home to a large team of dedicated research and development engineers with years of experience.

We cooperate with leading technical professionals from around the world and develop innovative products through our partnerships with renowned chipset manufacturers, including MediaTek and Qualcomm.

Mercusys has a strong commitment to excellence, a vast global network, and a dream of enriching lives through better connections.

We are proud to offer the stable, high quality products that put you in touch with the digital world and help you enjoy a more fulfilling online experience.

# Rapoo

## About Rapoo:

Rapoo is a wireless pioneer founded in 2002. In 2005, the brand Rapoo was established. The company introduced wireless equipment using the 2.4 GHz frequency band in 2007 and became China's market leader in three years.

In 2011, Rapoo was listed on the Shenzhen Stock Exchange and launched products that utilize the 5 GHz frequency band.

Rapoo opened one of Asia's most modern factories in 2012.

The company now has approximately 3,000 employees worldwide and its products are sold in over 80 countries.

Rapoo is fully ISO-certified and fully complies with essential global standards and regulations.

Rapoo has kept growing since its foundation in 2002.

In its development course, Rapoo has developed strong R&D capability and formed superior manufacturing practices, thereby winning recognition of many customers at home and abroad.

Rapoo launched its domestic strategy and own brand "Rapoo" in 2007.

Since then, Rapoo has adhered to the operating principle of "Human-oriented, and innovation through technology",

in order to meet customers' needs and build sound aftersales service system.

Until now, Rapoo has won extensive recognition of tens of domestic industrial media and received nearly 100 awards, thanks to its rapidly-growing business in China and excellent product quality.

Going forward, Rapoo will continue to make contribution to public welfare, and actively perform duties as a corporate citizen.

Rapoo will also promote the building of industrial standards, boost life quality of mankind and help advance the development of peripheral wireless device industry.

## About ugreen:

At UGREEN, We Believe There's an Optimal Combination of Value and Innovation. UGREEN aims to create value for users and contribute to society by fostering an open and creative environment for the development of ideas. We believe in combining innovation with value to offer products that provide great utility. Since 2012, we have focused on creating innovative electronic devices and accessories that are both technologically advanced and affordable for consumers. Our user-focused approach lies at the core of our brand, which has earned the trust of over 200 million users globally. With a wide network of online and retail channels, UGREEN is dedicated to delivering high-quality products and excellent service to maximize customer value. UGREEN is committed to creating products that improve daily life and work, with a focus on social responsibility, human care, and environmental sustainability. We strive to innovate and develop technology that aligns with ecological harmony.

# Hiksemi

**HIKSEMI**

## About Hiksemi:

As a global provider of ultimate storage products and solutions, we are committed to constantly exploring and inventing to meet the ever-changing demand of our customers.

From the first SD card to the recent advancements in the Zoned 2.0 algorithm cluster, as well as other advanced products, our journey has been marked by continuous drive. Step by step, our persistence in innovation and perfection continues to inspire those who dare to dream.

We go above and beyond to embrace the future, constantly striving to build an intelligent lifestyle.

Adhering to the original intention of “storage keeps beauty and wisdom changes life”, we always stick to be user-oriented, gain insights into economic dynamics, and continue to provide enterprises and customers with the latest safe and reliable storage devices, systems and solutions through technology innovation and brand building.

We hope to integrate with the world and inspire the future. Walk the walk and make dreams come true.

# Hdplus

## HDPLUS

### About Hdplus:

Domain made the decision to develop its own distinctive brand in 2017. After extensive research, we developed our own brand, X-Loud, in the audio sector. It consists of three product categories: 2.0 speakers, 2.1 speakers, and Bluetooth headsets. It caters to a wide range of end users, from entry-level to high-end products, while guaranteeing the highest quality and longevity. 2018 saw the successful launch of X-Loud. and positive comments from several clients. X-Loud guarantees Domain ITSP's robust growth in the Egyptian market and is regarded as a significant turning point in the company's development and expansion plan.
