Specialist Referrals – Ear, Nose, Throat	Veteran’s Resources
Specialist Referrals – Gastroenterologist	Visual Impairment Resources

How to use this document

To jump to a specific category: hover mouse over the category name in the table of contents hold down the “ctrl” key and left click on your mouse. This will take you to the beginning of that category.

Example: I want to see all of the substance abuse treatment resources in the area. I am going to hover my mouse over the words “Substance Abuse Treatment” in the table of contents, hold the “ctrl” key down, and click my mouse. This is going to take me right to all the information I am looking for.

To search for a specific word or name: hold the “ctrl” and “f” key down. A search box will pop up. Type the word or name you are looking for into the box and hit “enter”. This will highlight all of the times that word or name appears in this document. Hit the “find next” button in the search box to browse each instance the word is used and find what you are looking for. When you have found your desired information hit “cancel” and the search box will close.

Example: I want to see the information for the Pope County Care center without having to scroll through all of the nursing homes. I will hold “ctrl” and “f” down, type “Pope County Care” into the search box, and hit “enter”. This will take me straight to the Pope County Care center information, I hit “cancel” in the search box so it will close and I use the information found.

To jump to a linked website or email address: hover the mouse over the website or email address, hold down the “ctrl” key and click the mouse. The website will pop up in your web browser, the email will open this computers default email system (usually your outlook account). If the links do not work you can always copy and paste the address into your web browser or preferred email host.

Example: I am looking at the information for the Chestnut Health Systems and I would like to read more about the services and programs they offer. I see that there is a website listed. I hover the mouse over the website, hold the “ctrl” key, and click my mouse. The website opens in my web browser (it takes a moment to load) and I can read about everything the Chestnut Healthy System offers and determine if they are the right resource to meet my needs.

To zoom in or out: Locate the bar at the bottom right of this program. It has a “-” on the left side and a “+” on the right side. Slide the marker in the middle to either side of the bar to zoom in and out.

To edit or add information: This is a simple Microsoft Word document; you can add and change anything within it. Just make sure you save the changes and be careful not to change the links or it will not be as easy to search.

Adolescent Resources

Youth in Need – Street Outreach

Specialty	The program targets the needs of at-risk, runaway and homeless youth by providing services on the streets of the St. Louis metropolitan area. A mobile outreach unit provides tangible items, such as food, clothing and hygiene products to street youth. The program also distributes Youth In Need literature and referral information for other needed services, including GED programs, medical facilities, shelters, job training programs and long-term food pantries. Street Outreach workers provide case management services by offering follow-up visits and completing progress notes on its clients.
