A Note from Kristen...

I love Spring! The flowers are blooming, and the days are warm but pleasant. Summer weather will be here soon, so let's enjoy it.

Have you reviewed your goals lately? Look at the goals you set in January and evaluate how you are doing. Do you need to get with the program, adjust your goals, or are you killing it? One of my goals is to grow my business by striving to be the best. I want to be dependable, knowledgeable, super-responsive, easy to work with, trustworthy, and represent quality manufacturers. Your support and trust means everything to me, and I work every day to be better.

On a personal note, I have two BIG events coming up and would love your input. Read below to see what I am up to...

BuzziSpace Acoustic Lighting

BuzziShade Square reduces external noise levels to a minimum. Thanks to the pendant light's large surface area and rounded corners, the solution can effectively trap sound waves as they travel upwards and thus preventing them from bouncing around the room. Placing BuzziShade Square above a source of noise (such as a lounge area or workstations) it will absorb a large amount of sound, therefore helping to create a well-balanced workspace.

WE ARE GOING TO DISNEY!

EEEEKS! I get to take my daughter to Disney World in a couple of weeks. Her cheer team qualified for a national competition that is held in Orlando. Pre-Covid we went almost every year, but we have not been since 2018. What is your favorite thing to do at Disney World? No Harry Potter. We have done that... BTW, we have nothing fun planned for the rest of the year. Taylor and Disney happen to be back-to-back. Crazy times.

I would love to connect

Reach out and let's set up a time for coffee, lunch or a Lunch & Learn.

Make it a great day!
