

CEU

Healthcare Design: How to combat superbugs

Superbugs in the healthcare environment cost millions of dollars each year. Instead of using harmful chemicals to control the spread of these ever-evolving bacteria, there is a safe solution. Copper. Learn about the biocidal properties of copper and the life-saving results of using it in hospital design. Learn why superbugs are one of the biggest challenges in healthcare today and what you can do to help combat them.

Who Should Attend

A&D professionals, LEED AP and Green Associates, Facility Managers, Purchasing Professionals, Furniture Producers and Dealers, and customers

Program Credits

This program is approved for 1 credit hour with: IDEC CEU/HSW designation, AIA LU/HSW designation, GCBI CE's (General designation)
