                        05/11/03          y2      Anti-Microbe

This will acknowledge your submission dated 28/02/03, concerning the aforementioned non-food chemical for which you have requested acceptance for use in food processing facilities.

Nous accusons réception de votre  
soumission datée du 28/02/03, concernant  
le produit cité en rubrique pour lequel vous  
demandez une acceptation pour utilisation  
dans les établissements de transformation  
alimentaire.

The final printing label has been reviewed and the contents of the label appear satisfactory for use in food facilities. Therefore, no objection will be taken to the use of the above non-food chemical in food facilities, provided that it is used in keeping with the instructions outlined on the label.

L'étiquette finale a été revue et son contenu nous apparaît acceptable pour utilisation dans les établissements alimentaires. Ainsi, nous ne nous opposerons pas à ce que les établissements alimentaires utilisent le produit chimique non alimentaire ci-haut mentionné, à condition qu'il soit utilisé conformément au mode d'emploi indiqué sur l'étiquette.

This acceptance of this non-food chemical will depend upon its continued acceptability to all concerned.

L'acceptabilité du produit chimique non alimentaire sera conditionnelle à la satisfaction de toutes les parties intéressées.

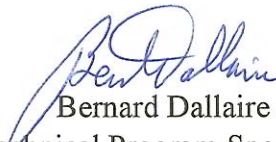

Should any changes occur in the chemical formulation of the aforementioned non-food chemical, then this acceptance will be considered **NULL and VOID**.

Cette acceptation sera considérée comme **NULLE et SANS EFFET** si l'on procède à une modification quelconque dans la formulation chimique du produit chimique non alimentaire ci-haut mentionné.

Yours truly.

Je vous prie d'agréer l'expression de nos sentiments les meilleurs.

Dear Mr. Dagher:

RE: **Anti-Microbe**

This has reference to your letter of December 21, 2001 regarding the acceptability of the subject product in food processing plants.

Based on the information submitted, we can advise that we see no reason to object to the use of this product to sanitize the hands of employees handling food products without a subsequent rinse provided that:

- a) there will be no direct addition of this product to food, when used as directed;
- b) this product is used only after thoroughly washing hands with soap or detergent and rinsing with potable water; and
- c) after application of the product, hands are effectively free of excess amount of product that may transfer to food.

The Drug Identification Number (**DIN**) should be added to the label of this product. For DIN registration, your company should contact Laura MacDonald at (613) 941-6073 of the Bureau of Gastroenterology, Infection and viral Diseases, Therapeutic Products Directorate of Health Canada.

The label of this product is deemed acceptable for its use in food plants.

Canada

-2-

Please note that Mr. Kwong has now retired from the government. Future correspondence should be sent to the attention of Mr. Michel Pelletier who is the Section Head of the Food Packaging Materials and Incidental Additives Section

We trust that the foregoing will be of use to you.

Yours truly,

A handwritten signature in blue ink, appearing to read "Amina Badar".
