The belt loops give these jeans a ruff and rugged look that complete the overall look. The belt loops will fade very nicely too, adding to its uniqueness. A terrific way to enjoy these jeans is to love the aging of the fabric. These jeans will be your life partner. During this journey as the color fades and they are worn out. Two types of yarns are used to stitch the jeans together. The cotton is used so the yarn will fade with your jeans. The polyester is for strengthening the jeans.
