

# EMS SKILLS: MVA / TRIAGE

---

2023

**Required Equipment:** Score sheets, clip board, pen, stopwatch, (10) patients (real or simulated, labeled with patient tags, 2" Tape, triage belt/kit with: green, yellow, red, and black (or striped) triage tape, permanent marker, Triage ICS vest.

**Objective:** To demonstrate basic triage of real or simulated patients in a mock MCI scenario using the START Triage algorithm.

**Evolution:** Participants will identify their team leader to the evaluator. The team leader will wear the ICS vest during the evolution. The evaluator will inform the team of the event rules and the MCI scenario (multi vehicle MVA) and give triage belt to the team leader. Time will start when the evaluator says "Go." All patients will be triaged in place (patient cards will be zip-tied to the wreckage). Triage tape will be attached on each patient card with binder clips (which are on the cards). Patients will not be moved during the event. Once all patients have been triaged, the team leader will then inform evaluator of the total number of patients in each triage color and time will stop.

**Rules:** All team members will wear bunker gear and EMS gloves and eye protection during the event. The prop consists of wrecked and burned cars with rocks, curbs, and a sidewalk. Running and climbing on or over the cars are strictly prohibited. Time will begin when the team enters the MCI scenario to start initial triage. Time will end when the team leader has completed their report of patient count/status to the evaluator. There is 10-minute time for this event. This event will be scored as a team only.

**Penalties:**

1. Failure to triage a patient. (1 minute)
2. Failure to correctly triage a patient (15 seconds)
3. Running or any other unsafe action (1 minute)
4. Climbing on or over the wrecked vehicles.(2 minutes)

**Critical (Fail) Criteria:** There are no fail criteria for this event.
