

League Rules

Pop's Poker League Championship (PPLC) rewards PERFORMERS and REGULARS!

\$5 will be collected from every entry from each qualifying tournament (from the prizepool), which will be held by the charity, as the prizepool, for a "league championship" tournament at the end of a specified qualifying period, for all qualified players.

The league championship will be held at Pop's Poker on a specific date and time to be posted on the website and inside at Pop's Poker, prior to the start of each series.

How Players Qualify for the PPLC

In order to qualify, you must play a "qualifying" tournament. The buyin and fees will be posted, including the \$5 league fee for each tournament (if applicable), prior to the start of the tournament. Pop's reserves the right to hold tournaments that are NOT qualifying tournaments in addition to the qualifying tournaments.

The number of PPLC seats will be limited to a specific amount that will be set prior to the start of the series and posted along with the schedule online (www.poppoker.com) and at Pop's Poker.

Players may qualify for a seat in the PPLC in one of three ways, by either being a top performer, or a top regular, or as an early bird, as follows:

PERFORMERS --- Pop's will calculate your total cumulative "cashes" and rank you relative to other players' cashes.

The top "performers" (specific number of seats according to the posted league period – typically 20) will be guaranteed a seat. Ties on the "cut line" (the last qualifying "performers" score) will also qualify.

REGULARS --- Pop's will calculate your total cumulative "buyins" and rank you relative to other players' buyins. The top "regulars" (specific number of seats according to the posted league period – typically 20) will be guaranteed a seat. Ties on the "cut line" (the last qualifying "regulars" score) will also qualify.

EARLY BIRDS --- Players will earn an early bird point for every tournament that they play in when they register BEFORE the posted start time of the tournament. Only players who have not previously qualified as a performer or a regular may qualify as an early bird. There are no qualifying ties for early bird seats. The top X (specific number of seats according to the posted league period – typically 5) will qualify. Ties will be broken by the following three parameters:

- # of early bird points
- # of tournaments played in
- Total cumulative buyins (regulars score)
- Total cumulative cashes (performers score).

You cannot qualify for more than one seat, even if you technically qualify in different groups of qualifiers. For example: It is possible that a highly ranked "regular" is also a highly ranked "performer" yet that player will only be awarded one seat.

Players cannot substitute another player for their seat. Qualified players must be the one who plays in that seat. Specific seats and table assignments will be determined at the point of registration on the day of the PPLC.

If a qualified player does not show up to play in the PPLC by the end of the late registration period on the day of the PPLC, their seat will be forfeited.

League Championship Structure

- 25,000 starting chip stack
- 20 minute blinds
- Late registration through the first 5 levels + the 1st break
- Prizepool TBD

League Rules

Other Rules
