

ATTENTION

CPVC FIRE SPRINKLER SYSTEM INSTALLED THE USE OF EXPANDING FOAM IS PROHIBITED AT SPRINKLER PIPE PENETRATIONS

DO NOT:

- Fill sprinkler pipe penetrations with expanding foam
- Use fire-block foam around sprinkler piping
- Seal around sprinkler piping with foam products

WHY THIS MATTERS

Foam products may:

- Damage CPVC piping
- Cause cracking and leaks
- Lead to system failure
- Require costly replacement

TENTING GUIDE

REQUIRED METHOD

Seal penetrations with fire-resistant caulking
Ensure material is compatible with CPVC
Maintain pipe integrity and accessibility
