Hey Everyone,

I am neck deep in manuals and work, so I will be unable to devote any time or energy to PBA. I have not lost my desire for it to be successful but I have lost focus on it. I know I am the signator on the partnership agreement, but that was only because of Julies medical/legal potential problems. It has always been Julies passion, interest and something that kept her motivated. I would like for Julie to be treated as partner. If I need to sign over to her on paper, I will. If you as a group feel it wouldn't be a good fit to have Julie as the active partner for our share then it should be brought up and a different direction will have to be taken. Julie might be a little over reactive at times but every one of her concerns has come to fruition. She is proud of PBA, she loves PB business model and loves the instructional model as well. (I on the other hand am not as pleased with the way Tom and Elisabeth have handled the Franchise). I have told Julie that if she wants to try to make PBA work then I am leaving it up to her how our partnership proceeds from here out. If we do make a hard push to make this work, Julie will be getting a house in Asheville within the next few weeks. But this won't be done if either, you don't want Julie as partner, or if Julie is partner, she will need to be more openly talked to as a partner, and not after the fact, but as part of the solution. If she can't be treated this way then, an alternative will have to be sought.

Good Luck to all of you.

Sincerely,

Burke Schnedl
