SECTION I: Applicant and Project Information

GENERAL INFORMATION

- 1. No work of any kind may begin in a floodplain area designated as A, A1-30, AE, AO, AH, or B until a floodplain development permit is issued.
- 2. The permit may be revoked if any false statements are made in this application.
- 3. If revoked, all work must cease until a permit is re-issued.
- 4. The development may not be used or occupied until a Certificate of Compliance is issued.
- 5. The permit will expire if no work is commenced within 6 months of the date of issue.
- 6. The permit will not be issued until any other necessary local, state or federal permits have been obtained.
- 7. By signing and submitting this application, the Applicant gives consent to the local Floodplain Administrator or his/her representative to make reasonable inspections prior to the issuance of a **Certificate of Compliance**.
- 8. By signing and submitting this application, the Applicant certifies that all statements contained in SECTION I of the application, and in any additional attachments submitted by the Applicant, are true and accurate.

Property owner(s):	Mailing address:	
Telephone number: Fax number:	e-mail address:	
Signature(s) of property owner(s) listed above ¹	¹ Attached forms if there are additional property owners. This permit application will not be accepted without the signature of all property owners. The signature is an acknowledgement and consent to this floodplain development permit application.

SECTION II: (To be completed by Floodplain Administrator)				
FL	OOD INFORMATION			
1. 2. 3. 4.	The proposed development is located on FIRM map panel: (number and suffix) The date on the FIRM			
5.	If the proposed development is located in Zone B or shaded Zone X, a floodplain development permit is only required if the Development is a "critical facility" as defined in the Flood Damage Prevention Ordinance.			
	Otherwise, no floodplain development permit is required in Zone B or shaded Zone X.			
6. 7. 8.	If the proposed development is located within either Zone A1-30 or Zone AE, is it also located within a "regulatory floodway"? YES NO If YES, a No Rise Certificate is necessary before proceeding. If NO, continue.			
If the proposed development is located within Zones A, A1-30, AE, AO, AH, <u>B or shaded X (critical facilities</u> <u>only)</u> ,apply the criteria of the Flood Damage Prevention Ordinance to minimize flood damages to the proposed Development and to adjacent properties as well.				
	For structures, the provisions of the ordinance specify that the lowest floor, including utilities, be elevated above the base flood elevation. Therefore, it is necessary that the following information be provided:			
1.	Base flood elevation at the feet above mean sea level (MSL) site:			
2.	Vertical datum used in the Flood Insurance Study, on flood maps and in surveys is			
3.	Source of the base flood elevation (BFE)			
	 G Flood Insurance Study Profile # Other sources of the BFE (specify): 			
4.	Proposed lowest floor elevation (including utilities): feet above MSL (This elevation must be greater than the BFE. For non-residential structures, floodproofing may be used for protection. See ordinance for details.)			
	The following documents may be required. <i>Check applicable.</i>			
	 Maps and plans of the development An Elevation Certificate³ – required for all structures A Floodproofing Certificate³ – required if floodproofing a non-residential structure A No-Rise Certificate³ – if the proposed development is in a "regulatory floodway" An elevation study showing BFEs on developments exceeding 50 lots or 5 acres in Zone A A copy of Wetlands Permit from the U.S. Army Corps of Engineers if required; and other local, state, federal permits. Other permits:
