ABOUT US

We are manufacturers and designers of furniture & solutions for the complete office floor plate. We integrate the latest technology with ergonomic products to provide solutions which are innovative and durable.

A large, stylized black quotation mark graphic, consisting of two thick, curved lines forming an opening quote.

**WE ARE
YOUR BEST
PARTNER**

Our ultimate goal is to provide relevant solutions that carry workplaces into the future. Together, with our partners, we will continue to anticipate changes in how people work and design solutions for a successful workplace

VISION & MISSION

VISION

Our vision is to redefine the modern workspace by providing innovative and adaptable modular furniture solutions that foster collaboration, creativity, and comfort. We aim to empower organizations to create versatile environments that enhance productivity and well-being, adapting seamlessly to changing needs. With a commitment to sustainability and quality craftsmanship, we aspire to lead the industry in transforming how people work and interact, making every office space a reflection of innovation and functionality that meets the demands of the future.

MISSION

Our mission is to design and manufacture high-quality modular furniture that enhances workplace functionality and aesthetic appeal. We are dedicated to providing flexible solutions that adapt to the changing needs of modern businesses, ensuring every office space promotes collaboration, productivity, and employee well-being. By prioritizing innovative design, sustainable materials, and exceptional customer service, we strive to create environments where organizations can thrive, fostering creativity and connection in every workspace we help to shape

COMPANY HISTORY

Archadeous Office Systems (AOS) has grown from a modular furniture startup to a one-stop solution by setting yearly milestones and expanding into diverse product lines. With consistent innovation, quality craftsmanship, and market-driven strategies, AOS ventured into workstations, cabin setups, lounge furniture, and more, establishing itself as a leader in workspace solutions.

MOBILITY

DESKING

A highly flexible system that addresses a range of workplace settings with effortless simplicity and effectiveness

MOBILITY

We integrate the latest advancements in science, technology, and manufacturing engineering at every stage of production, ensuring continuous improvement in product quality. With a simple yet intelligent design, our products blend modernity and functionality, offering a unique style that enhances executive appeal while delivering a natural feel and exceptional comfort.

SWIFT SERIES

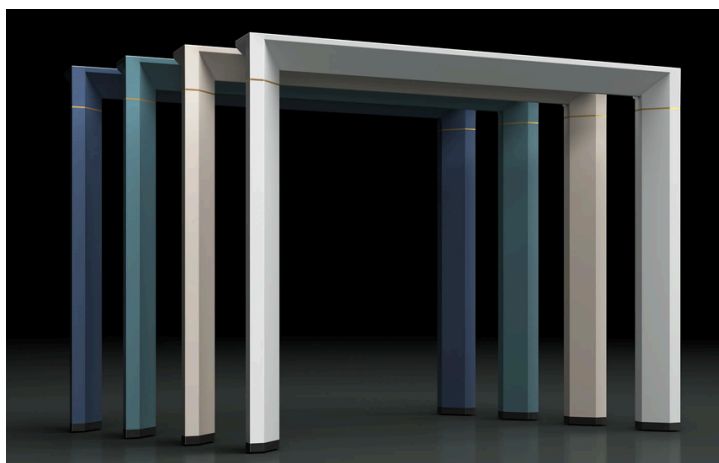

The Swift series is designed to bring sophistication and style to cabins and meeting rooms. Featuring premium die-cast legs, this collection combines durability with a sleek and modern aesthetic. These finely crafted legs not only enhance the structural integrity of the furniture but also elevate its overall appeal, offering a premium look that aligns with contemporary office designs. The Swift series reflects our commitment to blending functionality with elegance, ensuring that every piece adds a touch of class to your workspace. Ideal for professional environments, it creates an inviting and impressive setting for meetings, collaborations, and executive spaces.

ZETA

TESA

The **TESA** leg is designed to create the perfect desk and meeting room setup, combining modern aesthetics with functional elegance. Its sleek, minimalist design ensures a clean and sophisticated look, free from any visible hardware. Crafted for both style and practicality, the **TESA** leg seamlessly integrates into contemporary office environments, enhancing the overall appeal of your workspace. Ideal for desks and meeting tables, it offers a blend of durability and refined craftsmanship. With **TESA**, you achieve a professional and clutter-free workspace that reflects modern design sensibilities while maintaining a sense of elegance and simplicity.

SWIFT SERIES

ALPHA

ROCK

Combine stability and style effortlessly with the **ROCK** legs, designed specifically for cabins and meeting rooms. These legs offer robust support while enhancing the furniture's modern aesthetic. Perfectly blending functionality with a sleek design, ROCK legs add a professional and polished look to any workspace, ensuring durability without compromising elegance. Ideal for contemporary office settings, they create a stable foundation and a stylish impression for productive and sophisticated environments.

ZEN

PANEL-BASED EXCELLENCE

Take a seat and experience a new dimension of collaboration and productivity. ZEN creates sophisticated, cost-efficient, and super-flexible work spaces that stack up and stand the test of time—in open plan areas, private offices, reception areas, conference rooms, and beyond

ZEN Modular system is based on monolithic panels, creating functional spaces with simple solutions, Easy to assemble and designed for wire management capabilities , this is a collection inspired by productivity and efficiency

ACTIVE- X

HEIGHT ADJUSTABLE TABLES

ACTIVE X is a modern and versatile work system featuring adjustable height functionality. It is thoughtfully designed to let you seamlessly transition between seated and standing positions, promoting mobility and flexibility in the workspace. Whether for individuals or collaborative teams, ACTIVE X enhances productivity by encouraging healthier work habits and dynamic engagement. Its sleek and ergonomic design adapts to various office needs, making it an ideal solution for creating active, comfortable, and efficient work environments that cater to diverse preferences.

REPOSE

PODS

REPOSE is a series of modular, pod-style furniture designed to create a calm and quiet retreat within the workplace. The REPOSE collection seamlessly blends functionality with aesthetics, making it an ideal choice for commercial, public, and academic spaces. Available in various sizes, it provides privacy and minimizes auditory distractions. Each pod is self-contained, featuring integrated ventilation, lighting, and electrical access. REPOSE pods can be strategically positioned to create flexible workspaces within existing layouts, offering a cost-effective and versatile alternative to traditional hard-wall construction. Easy to install and relocate, REPOSE adapts to your workspace needs effortlessly.

OPTA

STORAGE & PEDESTALS

In today's dynamic office environment, where change is constant and space is increasingly limited, OPTA filing and storage solutions offer the perfect balance of functionality and efficiency. Designed to maximize organizational options without taking up valuable workspace, OPTA ensures every item, from documents and binders to coats and office supplies, has a dedicated place. Seamlessly integrating with other AOS products, OPTA brings durable and intelligent storage to any setting, enhancing productivity and maintaining a clean, organized workspace. Its versatility and thoughtful design make it an ideal choice for modern offices looking to optimize space without compromising style or convenience.

MILLWORK

At AOS, we excel in creating custom millwork solutions tailored to meet your unique requirements. Our skilled craftsmen collaborate closely with architects, designers, and project managers to turn your vision into reality. From intricate woodwork to sleek, contemporary finishes, we bring artistry and precision to every project. With a focus on detail and quality, we design and build solutions that seamlessly combine aesthetics and functionality, transforming spaces into stunning, purposeful environments. Whether for commercial or residential projects, AOS delivers millwork that enhances the character and usability of any space, reflecting craftsmanship at its finest.

MILLWORK

SOFT SEATINGS

Our lounge seating solutions are expertly crafted to provide the perfect balance of support and cushioning, ensuring maximum comfort and durability. Designed to adapt to diverse business needs, these seating options are ideal for reception areas, breakout zones, entertainment rooms, collaborative spaces, and more. With a focus on quality and style, our lounge seating enhances the functionality and aesthetics of any space, creating an inviting and comfortable environment. Whether for relaxation, collaboration, or social interaction, our versatile designs seamlessly blend comfort and sophistication, making them a perfect fit for modern workplaces and commercial settings.

CHAIRS

At AOS, we understand the importance of a well-designed workspace, and our office chair collection is a testament to that commitment. From ergonomic designs that prioritize your well-being to modern styles that enhance your office aesthetics, our diverse range caters to every preference.

Whether you're looking for executive chairs to add a professional touch, ergonomic chairs for optimal support, or sleek designs to complement a contemporary office, AOS has the perfect solution. Each chair is crafted with precision and attention to detail, ensuring lasting durability and unmatched comfort.

Transform your workspace into a hub of productivity and sophistication with AOS's office chair collection. Browse our range today to find the ideal match for your needs.

HOME FURNITURE

AOS specializes in crafting a diverse array of modular office furniture and serves as a comprehensive resource for complete interior projects. Our approach at AOS involves meticulous planning and design, prioritizing a deep understanding of our clients' preferences and spatial requirements. Even in minimalist settings, the inclusion of fundamental pieces like sofas and chairs is essential to create comfortable seating arrangements. The definition of furniture has expanded to encompass smaller items across multiple spaces, from kitchens and bedrooms to workstations and beyond. Our modular furniture collection boasts a wide selection of materials, colors, and designs to suit diverse tastes and needs. As the foremost manufacturer in modular furniture, we offer a broad range of premium-quality products tailored to various requirements.

FLUID

fuego

Designed to be user adjustable, fluid creates flexible workspaces, collaboration spaces, and social spaces. The users can reconfigure spaces on their own without any tools or electricians. Fluid comes with a whole range of accessories like privacy panels, marker boards, desks, meeting tables and soft seating. The system can carry power and data cables as required.

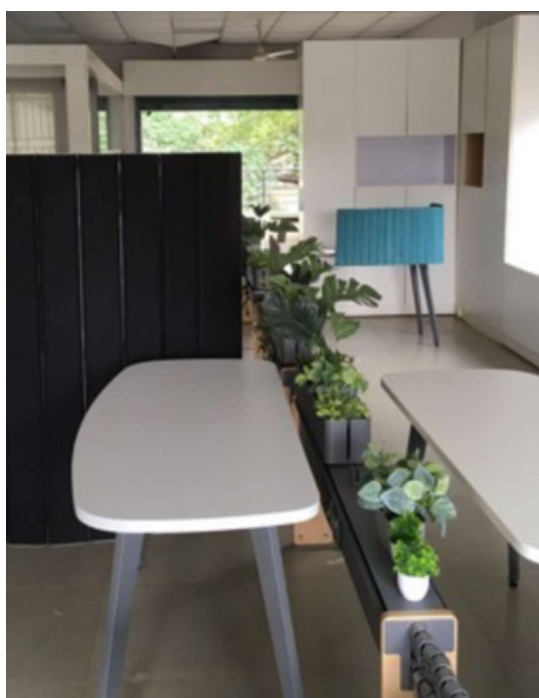

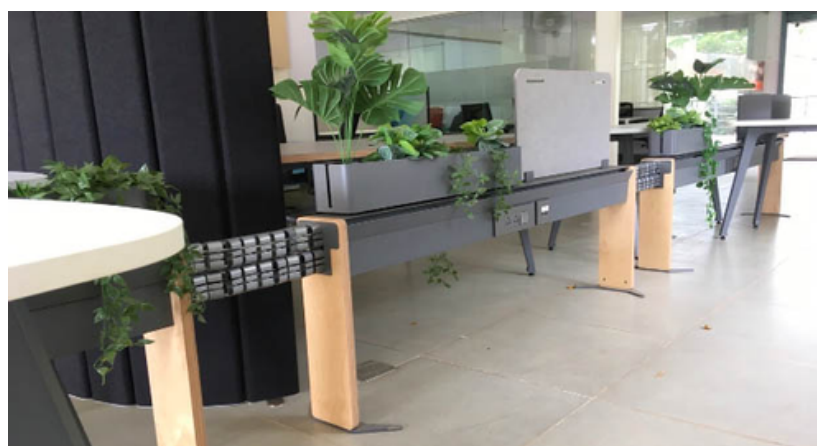

FLUID

fuego

Employees look for a sense of belonging at workspace, a greater degree of flexibility and control over their work environment. Give them this control, and they are willing to trade remote working for their own workspace at the office

Flexible furniture that the user can reorganize on the fly, based on their work requirements, with all the required electrical and data connectivity, without having to use any tools

DOCKING

fuego

The future of the workplace is a location that attracts employees who want to come there because it optimizes their performance and not because they are forced to come to work

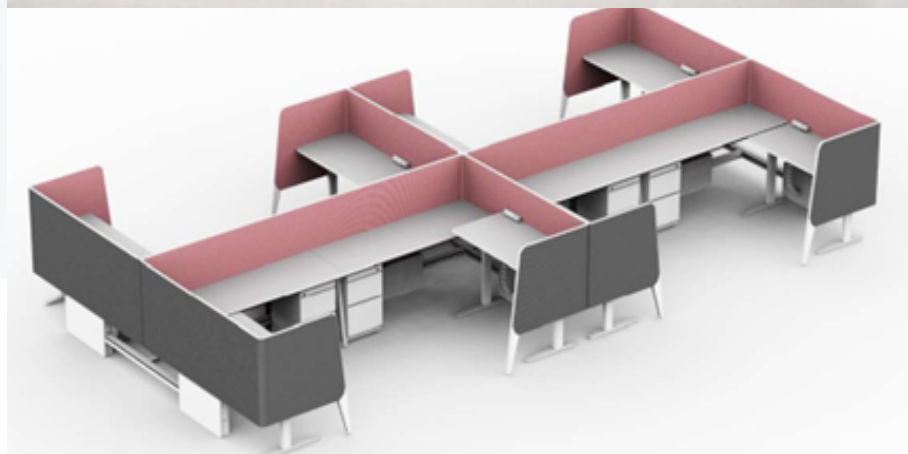

DOCKING

fuego

Some tasks need collaboration & teamwork, while some others need more focused work. The Docking system allows you to create the privacy users need for focused work, to meet safely, and collaborate with each other.

The same system has several options of related products like the docking desking system, docking shared system and docking collaboration systems with required privacy to carry out project meetings. When used to create collaboration spaces, the system includes the needed items like white boards, marker boards, and mounting for monitors / AV equipment.

wave

fuego

Collaborate, work , meet, and change office layout on the go

By reconfiguring the flexible light weight partitions, users can create different sizes of meeting rooms, collaboration spaces, project areas, private workstations, and break out spaces on the go.

wave

fuego

transform

LADDER

fuego

Workstations, seating, and storage lockers integrated into one system leading to 18 % savings in floor space. Translucent side panels allow for daylight to each desk. High floor clearance aids in air circulation thus avoiding virus hotspots.

LADDER

fuego

Create internal collaboration spaces & lounge spaces using soft seating, tables built into the Ladder system. Choose from accessories like planters, hanging organizers, hanging storage units and employee lockers.

flow

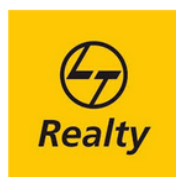

fuego

The Flow system can be used to create short or long desking systems with privacy screens, strong wire management capabilities and clean surfaces at relatively low cost.

The comes along with a range of accessories and planters.
