

MICHIGAN HELICOPTERS PASSENGER WAIVER

"WHERE SAFETY AND QUALITY MEETS THE SKIES"

EMBARKING/DISEMBARKING THE HELICOPTER

It is important that all passengers understand the pre-flight briefing. The instructions given during the briefing, educate you on the procedures to follow during your helicopter experience and are designed to keep you safe at all times. Please follow these instructions for your own safety around helicopters.

PAY ATTENTION TO THE PRE-FLIGHT BRIEFING

Before you fly, it's important to know what is expected of you. The pilot and/or staff will tell you when and how to enter and exit the helicopter, they are there to ensure your safety but can only do so with your cooperation.

BEWARE OF THE ROTORS - DO NOT APPROACH FROM BEHIND

- Wait for the crew's signal before moving toward the aircraft.
- Approach the helicopter from the front or sides only! Never approach the helicopter from the rear and stay in front of the rear doors at all times.
- Stand low in a crouch as you approach a helicopter on level ground that has its rotors turning.

KEEP TRACK OF LIGHT AND LOOSE ITEMS

- Securing your personal belongings is important.
- Lightweight items can blow away as you near the helicopter
- Let an item go if it flies out of your hands. You can get hurt if you try to chase it.

EXIT & ENTER WITH SAFETY IN MIND

- Always depart the helicopter in the same direction you entered it, from the front or side, and make sure it is in the safety zones described above.
- Remember not to wave your arms, jump, or lift anything over your head, and keep all loose personal items secure

DOORS, SEAT BELTS, AND HEADSETS

Ensure that safety belt is secure before takeoff.

Familiarize yourself with door operation upon entering aircraft:

Do NOT lock doors during flight

TO LATCH:
Pull door closed while sliding back and down

TO UNLATCH:
Lift handle and slide forward

WEATHER

For your safety and the best experience possible, we do not fly in thunderstorms, snowstorms, icing conditions, fog, high winds or conditions which produce low-visibility. We pride ourselves on quality and safety. We here at Michigan Helicopters want you to have a safe and enjoyable experience. If your flight will be unsafe due to weather or your views of Michigan will be hindered due to low visibility, we will contact you as early as possible to reschedule your tour. If your flight is rescheduled due to weather there is no additional charge.
