

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
1	Issue Original/Recurrent airworthiness approvals for domestic shipment of new articles that conform to the approved design requirements and are in a condition for safe operation.
2	Issue Original/Recurrent airworthiness approvals for domestic shipment of new reciprocating and turboprop/turboshaft engines that conform to the approved design requirements and are in a condition for safe operation.
3	Issue Original/Recurrent airworthiness approvals for domestic shipment of new turbojet/turbofan engines that conform to the approved design requirements and are in a condition for safe operation.
4	Issue Original/Recurrent airworthiness approvals for domestic shipment of new propellers that conform to the approved design requirements and are in a condition for safe operation.
5	Issue Original/Recurrent airworthiness approvals for export shipment of new articles that conform to the approved design requirements and are in a condition for safe operation.
6	Issue Original/Recurrent airworthiness approvals for export shipment of new reciprocating and turboprop/turboshaft engines that conform to the approved design requirements and are in a condition for safe operation.
7	Issue Original/Recurrent airworthiness approvals for export shipment of new turbojet/turbofan engines that conform to the approved design requirements and are in a condition for safe operation.)
8	Issue Original/Recurrent airworthiness approvals for export shipment of new propellers that conform to the approved design requirements and are in a condition for safe operation.
20	Conduct conformity inspections to determine that prototype articles, parts, and or assemblies conform to the design specifications.
22	Conduct conformity inspections to determine that prototype aircraft conform to the design specifications.
23	Conduct installation conformity inspections.
24	Conduct FAA initiated production conformities and any inspections to determine that production approval holder articles, parts, and or assemblies conform to the approved type design and are in a condition for safe operation.

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
28	Conduct conformity inspections on Test Articles and Test Set Ups
30	Issue Original standard airworthiness certificates, amended or replacement certificates for U.S. registered, powered or unpowered gliders, piston engine, turbo prop, or turbojet powered airplanes type certificated for a Gross Take Off Weight (GTOW) of 12,500 pounds or less.)
31	Issue Original standard airworthiness certificates, amended or replacement certificates for U.S. registered airplanes type certificated for a Gross Take Off Weight (GTOW) of more than 12,500 and less than 85,000 pounds.
32	Issue Original standard airworthiness certificates, amended or replacement certificates for U.S. registered airplanes type certificated for a (GTOW) of more than 85,000 pounds.
33	Issue Original standard airworthiness certificates, amended or replacement certificates for U.S. registered rotorcraft.
34	Issue Original standard airworthiness certificates, and/or amended or replacement certificates, for U.S. registered manned free balloons.
35	Issue Original standard airworthiness certificates and/or amended or replacement certificates for new production airships that have satisfactorily completed production flight tests, for U.S. registered airships.
36	Issue Original/Recurrent export airworthiness approvals for new products in accordance with the provisions of 14 CFR part 21 subpart L.
40	Issue Original special airworthiness certificates, amended or replacement certificates, in the restricted category for U.S. registered piston engine powered airplanes certificated located in the U.S. with a GTOW of 12,500 pounds or less.
41	Issue Original special airworthiness certificates, amended or replacement certificates in the restricted category for U.S. registered, piston engine, turboprop, or turbojet powered airplanes type certificated for a GTOW of greater than 12,500 and less than 85,000 pounds.
42	Issue Original special airworthiness certificates, amended or replacement certificates in the restricted category for U.S. registered, piston engine, turboprop, or turbojet powered airplanes type certificated for a GTOW of more than 85,000 pounds.

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
43	Issue Original special airworthiness certificates, amended or replacement certificates in the restricted category for U.S. registered rotorcraft.
44	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, in the limited category or Issue original provisional airworthiness certificate for U.S. registered propeller driven airplanes and turbojet/turbofan aircraft.
45	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft in the limited category or issue original provisional airworthiness certificate for U.S. registered rotorcraft.
46	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of show compliance, market survey, research and development, or crew training for U.S. registered piston engine airplanes, electric powered airplanes and powered or unpowered gliders.
47	Issue; Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of show compliance, market survey, research and development, or crew training for U.S. registered turboprop, turbofan, or turbojet powered airplanes.
48	Issue; Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of show compliance, market survey, research and development, or crew training for U.S. registered rotorcraft and gyroplanes.
49	Issue; Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of show compliance, market survey, research and development, or crew training for U.S. registered manned free balloons and airships.
50	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of show compliance, market survey, research and development, or crew training for U.S. registered powered parachute and weight shift control aircraft.

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
51	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in experimental category for the purposes of operating exhibition and/or air racing for U.S. registered propeller driven aircraft and powered and unpowered gliders.
52	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates), in experimental category for the purposes of operating exhibition and/or air racing for U.S. registered turboprop or turbojet powered aircraft.
53	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in experimental category for the purposes of operating exhibition for U.S. registered rotorcraft.
54	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in experimental category for the purposes of operating exhibition for U.S. registered manned free balloons and airships.
55	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purposes of operating exhibition for U.S. registered piston engine powered former military aircraft not eligible for a Limited Category Type Certificate.
56	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purposes of operating exhibition for U.S. turbo prop or turbo jet former military aircraft not eligible for a Limited Category Type Certificate.
57	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of operating Amateur Built aircraft for U.S. registered propeller driven airplanes and powered or unpowered gliders.)
58	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of operating Amateur Built aircraft for U.S. registered turboprop or turbojet powered airplanes.
59	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of operating Amateur Built aircraft for U.S. registered rotorcraft and gyroplanes.
60	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, in the experimental category for the purpose of operating amateur built for U.S. registered manned free balloons and airships.

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
61	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates in the experimental category for the purpose of operating light sport aircraft for U.S. registered aircraft.
62	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, production flight testing new production aircraft, and conducting customer demonstration flights in new production aircraft that have satisfactorily completed production flight tests for U.S. registered, piston engine, turbo prop, or turbojet powered airplanes type certificated for a Gross Take Off Weight (GTOW) of 12,500 pounds or less.
63	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, production flight testing new production aircraft, and conducting customer demonstration flights in new production aircraft that have satisfactorily completed production flight tests for U.S. registered airplanes type certificated for a Gross Take Off Weight (GTOW) of more than 12,500 and less than 85,000 pounds.
64	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, production flight testing new production aircraft, and conducting customer demonstration flights in new production aircraft that have satisfactorily completed production flight tests for U.S. registered airplanes type certificated for a Gross Take Off Weight (GTOW) of more than 85,000 pounds.
65	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, production flight testing new production aircraft, and conducting customer demonstration flights in new production aircraft that have satisfactorily completed production flight tests for U.S. registered rotorcraft.
66	Issue Original/Recurrent special airworthiness certificates and/or amended or replacement certificates, and special flight permits for delivering or exporting the airship, production flight testing new production airships, and conducting customer demonstration flights in new production airships that have satisfactorily completed production flight tests, for U.S. registered airships.

Authorized Function Code No.:	Authorized DAR-F (Manufacturing) Function Codes
67	Issue Original/Recurrent special airworthiness certificates, amended or replacement certificates, and special flight permits for delivering or exporting the aircraft, production flight testing new production aircraft, and conducting customer demonstration flights in new production aircraft that have satisfactorily completed production flight tests in the primary category for U.S. registered aircraft.
68	Issue Original/Recurrent and replacement Special Airworthiness Certificates, for the purposes of operating U.S. registered light sport aircraft and Issue original/recurrent and replacement Special Airworthiness Certificates for U.S. registered light sport category aircraft and special flight permits for light sport category aircraft production flight test operations.
