

RAMS MEETING MINUTES 6-15-2024

The meeting commenced at 9:00 a.m.

19 members in attendance

Meeting minutes from last month (May 2024) approved.

Treasurers report: balance as of the end of May 2024, \$26,733.08 – accepted

Safety: Be certain to always have a spotter. It is required. Also, make certain airplanes engines are always facing west when started and are not started under the shelter. Additionally, when on the field make certain you shout to those flying that you are going out and be certain the runway is clear for takeoff.

While the field is being mowed, please try to go down to the other end of the field and stay down there away from the mowers while they are working. It is dangerous otherwise for those riding the mowers.

Outhouse Status: Bob brought sand and asked for volunteers for assistance in redoing the base to stabilize it. Jonathan may be able to purchase a used outhouse that has a urinal and is suitable for handicap use. The club will have it serviced every month. Of course, this is dependent on our ability to purchase the used outhouse and agreement of the membership.

Miscellaneous: The next event (picnic) will likely be in October when the weather is cooler. We also want to do an appreciation day for first responders as well – again likely in October.

Current club membership is approximately 110 members.

Frank sent a message via Jerry Columbus thanking Medwin and Victor for setting up his new Timber. Their assistance is greatly appreciated.

Adjourned 9:20 a.m.
