

## SYNTHETIC WINCH LINES & EXTENSIONS

Stronger & safer than steel winch cables

Red tail-end indicator & adjustable chafe sleeve

Rust-proof, freeze-proof, weather-resistant and UV-resistant finish

Proudly made in USA

Nimbus™ Synthetic Winch Lines and Extensions are high-strength, lightweight alternatives to steel, engineered for demanding industrial and transportation applications. Resistant to rust, ice, and abrasion, they perform reliably in all weather conditions. Each line features a stainless steel thimble for enhanced durability, a Kevlar-protected tail (extensions only) for secure integration, and synthetic fibers that won't kink, retain memory, or recoil dangerously if overloaded. Both feature a 3:1 design factor and are made in the USA, offering a reliable, **high-performance solution for professionals who demand more from their gear.**

### NIMBUS™ WINCH LINES

PART #	WLL (LBS)	BREAKING STRENGTH (LBS)	ROPE DIAMETER (IN)	AVAILABLE LENGTHS (FT) (PART # - XXX = LENGTH)
25-0375XXX	6,600	19,800	3/8"	50, 60, 75, 100, 125, 150
25-0438XXX	7,400	22,200	7/16"	50, 60, 75, 100, 125, 150
25-0500XXX	10,700	32,100	1/2"	50, 60, 75, 100, 125, 150
25-0625XXX	16,933	50,799	5/8"	50, 60, 75, 100, 125, 150

### NIMBUS™ WINCH LINE EXTENSIONS

PART #	PART #	WLL (LBS)	BREAKING STRENGTH (LBS)	ROPE DIAMETER (IN)	AVAILABLE LENGTHS (FT) (PART # - XXX = LENGTH)
27-0375XXX	27-0375XXX	6,600	19,800	3/8"	50, 75, 100
27-0438XXX	27-0438XXX	7,400	22,200	7/16"	50, 75, 100
27-0500XXX	27-0500XXX	10,700	32,100	1/2"	50, 75, 100
27-0625XXX	27-0625XXX	16,933	50,799	5/8"	50, 75, 100
