

# Entomology In The Classroom!

Plymouth County Extension 4-H

## Backyard Bugs (General entomology presentation)

There's a mysterious alien world waiting for you just in your backyard! Together, we will explore some of the insects found at home and how they have come to solve the challenges of life.

## The Importance of Little Things (Native Pollinators)

Before the introduction of honey bees from Europe, all our flowering plants were pollinated by native pollinators. Learn about some of our American species of pollinators and what you can do to protect them.

## Hate Ticks?

Do you hate ticks? Learn about the methods you can use to protect yourself from ticks and the diseases they can spread!

## Butterflies

Butterflies represent some of the most beautiful and helpful creatures in our world: think of them as real-life fairies! Together we will explore some of the amazing world of butterflies in our own backyard.

## Fly Fishing

For many centuries, people have been trying to attract fish by mimicking some of their favorite foods: insects. Come learn about the history and some of the basics surrounding the delicate art and skill of fly fishing.
