

#### How to complete an AED check

Thank you for completing the monthly AED check, without volunteers such as yourself we wouldn't be able to continue to run and grow such a successful not-for-profit, community organisation.

This guide is put together by Registered Paramedics from the Community Defib Project and is designed to assist you in completing a basic check of your local community AED.

If the AED is not in it's cabinet, the cabinet is unable to be opened or there is no green tick or ready light present on the AED please call the DefibShop 24/7 line - 1300 729 575

DO NOT turn AED on whilst checking unit

Any questions please contact our team info@communitydefibproject.org.au
