Agent Phone \_\_\_\_\_

Agent E-Mail \_\_\_\_\_

### To Be Completed by Branding Agent:

Date Application Received \_\_\_\_\_ Date Horse Branded \_\_\_\_\_

Brand Size      Large       Small

Brand Noted on Registration Certificate      Yes       No

Incomplete Registration       Sold on Contract       Other

Agent Signature \_\_\_\_\_ Date \_\_\_\_\_

Owner Signature \_\_\_\_\_ Date \_\_\_\_\_

## BRANDING INFORMATION:

Many Shagya owners are hesitant to have their horse branded with the elegant Shagya brand which goes on the left hip because they fear the branding experience will be stressful or painful for their horse. Most Shagya owners, when they observe the actual branding procedure change their minds and decide to brand their horse when they see how simple, quick and straightforward it actually is. NASS uses finely crafted hot brands made in Switzerland, and NASS has two sizes--one for foals and one for older horses. Branding with a hot brand only takes a few seconds. The horse is held by one handler and one assistant and the brand is applied for about 5 seconds. Usually the horse feels a brief “sting” and then it is all over, and the horse feels no more discomfort. The brand does not normally require any more attention other than possibly the application of a bit of moisturizing cream over the branded area which is quite small. We encourage you to consider branding your Shagya with the uniquely distinctive Shagya brand. It also serves as a good deterrent to horse thieves! We appreciate your signing up for branding in advance of the inspection. However, we will also brand your horse “on the spot” if you decide to brand on the day of the inspection as long as you have a copy of your horse’s papers and can pay your branding fee at that time.

The Shagya-Arabian Brand
