NASS Breed Inspection Tour 2006

NASS' 2006 Inspection Tour will be held **September 22, 2006 through October 1, 2006**, at various sites throughout North America, as determined by participation.

This year's Inspection Committee will include two European ISG Certified Judges: Dr. Walter Huber, Germany and Mr. Tamas Rombauer, Stud Manager of Babolna National Stud, Hungary. Accompanying them to each host site will be Denis Atam, from the NASS Board of Directors. The NASS Regional Directors will each be at their regional sites and they encourage all NASS Members and Shagya enthusiasts to join us!

NASS welcomes all NASS registered horses to participate at the 2006 Inspection Tour and encourages those of you who may have an eligible horse not yet registered with NASS to do so in order to present them.

All NASS registered purebred and part-Shagya Arabian fillies two years old or older are eligible for inspection for breeding approval. The fee is \$200.00 per horse. Fillies under the age of two can be inspected for \$50.00, but not for breeding approval.

All NASS registered purebred Shagya, part Shagya Arabian and Purebred Arabian Stallions two years old or older are eligible for inspection for breeding approval. The fee is \$200.00 per horse. Colts under the age of two can be inspected for \$50.00, but not for breeding approval.

All NASS registered purebred and part-Shagya Arabian geldings and part Shagya horses of any age or sex may be presented and evaluated for a fee of \$50.00, but not for breeding approval.

Branding: Purebred Shagya branding will be offered at each inspection site. Branding costs are \$30.00 per horse for NASS Members and \$60.00 for non-NASS members.

Fees are due immediately to the NASS Treasurer. Contact your Regional Director with any questions or if you are interested in hosting an inspection site.

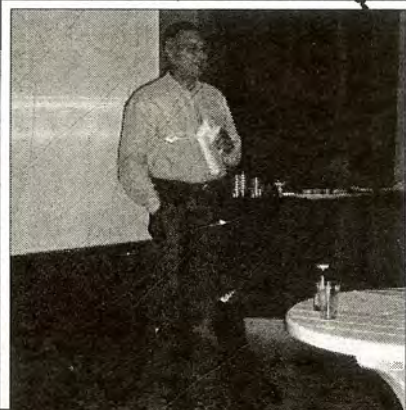

ISG-Annual Meeting November 19, 2005

Meeting notes taken & respectfully submitted by Denis Atam (pictured at left).

The annual ISG meeting 2005 was held in Stadl-Paura (Austria) on Saturday, November 19th. The delegates representing NASS were Denis Atam (BOD) and Irmu Atam (Treasurer). The event started at noon with a site-visit through the stud Stadl-Paura led by Mrs. Holzleithner. Many nice horses were shown and we were told a lot of the history of the stud, the buildings and so on. This took about 45 min. We went then into the meeting room for a short get together and were asked to come to the covered riding arena where they have prepared a

short Shagya show for the delegates. Mr. Hoppenberger led through the show. The versatility of the Shagyas was one of the key messages during that show – you can use them for dressage, jumping, endurance as well as a family horse. A few stallions were shown, some of them quite young, who were not yet familiar with shows and people watching and applauding – but the handlers did a great job. The more experienced stallions were: Shaman (owner Mr. Meindl), a grey Shagan son) and Raon, an experienced jumping and event horse – both very nice stallions! The Au family from Austria also showed their stallion they brought to the venue. After about another 45 min. we went back to the meeting room for a snack and then the meeting was officially opened by Gaby Conradty.

The meeting started with a 30-40 min. presentation from Dr. Zehner who is an expert in genetics research. He shared information about several analyses on the Shagya breed under (*Continued page 2*)

Message from the President:

Dear NASS members,

You may have heard lately that there has been talk of a "merger" with the other Shagya organization in North America, the American Shagya Verband. This organization, which split from NASS over disagreements in management, applied to the ISG for membership 2 years ago. The ISG ruled that there should be one organization per country and decided in favor of NASS after listening to both organizations' presentations at the International Meeting.

Although nothing official has occurred, it has come to my attention that there have been a number of people from the ASAV discussing NASS and a "merger" on internet message boards and in other venues, including at the ASAV board meeting. I can assure our membership that as President, I have to date never received any formal communication concerning ASAV's intentions in this regard.

We welcome back any ASAV members that might have left NASS, and have offered to register any horses currently registered with ASAV that are not on our registration books, if they satisfy NASS' requirements for purebred or part-bred Shagyas. As a further gesture of good faith, any horse that was presented 2 years ago at the ASAV judging event with Egon Kamarasy and his judging team is welcome to come to our inspections this fall, and the inspection fees will be waived for this group of breeding stallions and mares.

I also want to assure our membership that we are solvent financially, and in good standing as a non-profit organization with the State of Montana. We are a non-profit 501c3 and are current with our filings to the IRS in this regard. We run our organization professionally and within the law as required, filing all the necessary documentation each year with the state of Montana and the federal government. We have our members' best interests in mind and work for you, our members, to make sure the Shagya breed is represented in North America and that our stud book is up to international standards.

We welcome diversity in our membership and are working to best serve the Shagya owners and admirers in North America. Above all, NASS is dedicated to preserving and promoting the Shagya breed in North America. I hope all our members feel the same pride that I do in this organization.

Thank you for your continuing support of NASS.

Sincerely,
Mindy Basi
NASS President

NASS Memberships fees have increased starting January 1, 2006. Renew your annual membership for 2006 by March 31st, 2006 and save!

(ISG Meeting Continued)

The newly elected ISG BoD: Tamás Rombauer, von Kleist, & Ahmed Al-Samarraie).

genetic aspects. What it means if a breed is closed or open, about the meaning and importance of selection and breeding – what the difference is between selection breeding and breeding just to increase the numbers etc.

Next was the official declaration that the meeting was correct setup & invitations being sent out before, the registration which delegates are present and how many votes each country has. The annual report 2004 was signed-off and the BOD/treasurer report was acknowledged and approved.

Then Gaby Conradty gave a speech for about 30 minutes with a review of activities/achievements/high-lights and low-lights during her assignment since she became ISG president. Here a summary of the topics:

- Started 1999, implemented the 9/16 rule.
- 2000 Millennium with a show in Babolna, political changes in Babolna made it possible that the Shagya was acknowledged as cultural heritage and something to be preserved.
- 2001 ISG had 2 annual meetings – how much ISG do the member associations need? Several decisions made, more transparency needed. Plans to come up with a breeding program and collecting information/data from the member associations about number of foals & pedigrees. Members of the ISG BOD traveled to several different countries.
- 2002 Introduced the ISG-Cup, European Sport Championat, some coordination problems with dates of events, several Shagya shows, Gaby Conradty traveled to USA for an evaluating seminar at Donna Coss place, mediation in regards to the problems in USA with the second association.
- 2004 application of second US association ASAV was not approved. Several positive changes within NASS (introduction of regional directors, etc.)
- 2005 Equitana fair in Germany where ISG had a booth.

Some of the key messages were:

- There are too many national conflicts.
- National problems need to be solved at national level, ISG cannot help much in such matters.

- Missing global transparency, no information where which stallions/mares exist/stands, where are which bloodlines, etc.
- Missing stud books.
- There needs to be more marketing of ISG, ISG is not enough known/visible to the public.
- Need to exchange information about breeding stock amongst member countries.
- Certification standards are not in sync across all member associations (some have "Koerung" = performance test for stallions & special evaluation for breeding and some don't).
- Countries need to work more closely together.
- Issues with the reporting of the number of registered horses and therefore not being able to issue correct invoices.
- ISG and member association to educate our members and Shagya owners to be able to give a more consistent answer about the nature/ characteristics of the Shagya breed.
- Challenges with the European studbook legal requirements.

Everyone has to be willing to make compromises.

Gaby Conradty then stepped down (including Dr. Hecker and Mr. Hoppenberger) and they dissolved the BOD of ISG. Then Mr. Ahmed Al-Samarraie gave a short speech about what some of the people have discussed prior to the meeting and what they would like to propose.

A short intense discussion started about the election modus. Finally it was agreed to nominate two helpers who would act as the election committee and lead through the election. The first position to elect was the president's position. They had two candidates for this one (Al-Samarraie and Rombauer) and Al-Samarraie was elected with 1105 votes (all possible votes). For the second BOD position the candidates were Rombauer, Kleist, Hoppenberger and Rombauer was elected over Kleist with 792. For the third position the candidates were Frei, Kleist, Hoppenberger and Kleist was elected also with 792 votes.

The new BOD immediately proposed to extend the BOD with 3 additional positions – this was also agreed by all member countries. During the following election process the following 3 people were elected: Dr. Walter Huber, Mrs. Carin Weiss and Mr. Hoppenberger

Then the election of the treasurer Mr. Psota and an assistant treasurer took place.

Shaman(Shagan x Halima)

There were 3 applications from new members associations – Spain (approx. 20 registered horses), Croatia (approx. 30 registered horses) and Bulgaria (approx. 36 registered horses) – all 3 were approved.

Dr. Hecker gave a short speech from his side in regards to the situation in Hungary and the cultural heritage of the Shagya breed. He said that in former times the Shagya-Arabian horse was called "Babolna Arabian horse" and outlined that the breeding principals should be preserved and applied as they were defined 200 years ago.

Then the new BOD gave a short outlook what they have in mind for the future (better marketing, establish a Shagya database, more transparency & collaboration between the members, judge certification program, etc.)

Then Denis Atam gave a presentation about the current situation of NASS and the progress NASS made over the last 2 years. The situation that a second association was founded is unfortunate, but with the changes NASS made and the approach the new BOD of NASS is taking – the doors are wide open to welcome back any ASAV members to NASS. The feedback given by the attendees of the meeting was very supportive and encouraging that NASS should continue the great work and hopefully also to resolve the issue with the second association.

The meeting was closed at 7:30 p.m. when the majority of attendees went to a hotel close by.

Letter from the Editor

Dear Readers,

Thank you all for sending in your Shagya articles, pictures, classified ads, farm, performance, and show news. The newsletter is for you as NASS Members, fellow Shagya enthusiasts and about Shagya Arabians. Yet it is only as good as the materials I receive, so keep sending me your wonderful contributions! I apologize for any misspellings in the last newsletter, especially to Ulla Nyegaard and Holly Beach. Sorry!

I wanted to briefly touch on Shagya News' advertising policies: the NASS newsletter reflects the breed organizations' emphasis on the promotion of NASS approved stallions and mares and registered Shagyas in North America. Therefore, it follows that only horses registered with NASS and Stallions Approved for Breeding by NASS may be advertised in our newsletter.

With the upcoming breeding season quickly approaching and the 2006 NASS Inspection Tour plans underway, the NASS Handbook may come in handy, especially the rules pertaining to the registration and inspection of horses! Contact Gwyn Davis for a copy and any specific questions should be addressed by the NASS Breeding Committee.

Please visit NASS' website (www.shagya.net) for updates, current NASS news, contact informa-

tion, NASS Forms, advertising, as well as the list of NASS "Approved for Purebred Shagya Breeding" stallions. One can also find up-to-date 2006 Inspection Tour information on-line. And remember to sign up for 2006 Performance Awards!

As you know NASS is the only ISG Recognized Shagya Arabian Registry for North America. Part of the ISG's and therefore, NASS' mission is to preserve the Shagya-Arabian breed. In part this challenge is met by holding ISG Sanctioned Breed Inspections, thereby allowing an inspection team to evaluate eligible stock for Purebred Shagya Breeding Approval.

Part of what makes today's Shagya-Arabian an attractive, unique and valuable breed are the traditions of following strict Shagya breeding guidelines and rules in Shagya breeding programs. Let's work together to understand and continue those traditions in North America.

Sincerely yours,

Hallie Goetz
Shagya News Editor

The 2006 Stallion Service Auction on eBay!!!!

The 2006 Stallion Service Auction will be on eBay April 24 through April 30, 2006. Don't miss out on your 2nd chance to bid! See: www.ebay.com

Did you know? The European Shagya stallion Mersuch XXII won his 2004 HLP and Shaman (sired by NASS Member Walter Huber's Shagan) was Reserve Champion! The European Shagya stallion Maluk (Merlin x Galion) had the highest score at his 2005 HLP. Merlin is a son of *Mafia and was sired by Harapnik, sire of *Irahna's son *HADBAN.

Right to Ride Bill

The Right-to-Ride Bill, which would guarantee equestrians access to Federal public lands where horseback riding and stock packing are historic uses, seems to be stalled in Congress.

The stated purpose of this bill (HR 586, the Right-to-Ride Livestock on Federal Lands Act of 2005) is to preserve the use and access of pack and saddle stock animals on public lands, including wilderness areas, national monuments, and

other specifically designated areas, administered by the National Park Service, the Bureau of Land Management, the United States Fish and Wildlife Service, or the Forest Service where there is a historical tradition of such use, and for other purposes.

If the Right-to-Ride bill is to become law in the 109th Congress, a wave of popular support must carry it through the House Resources, House Agriculture Committees, and US Senate! Please take a few minutes to respond to the following link to provide your Support for the Bill to our Congresspersons. It WILL make a difference!

Off the Registrar's Desk

by Carol D. Neubauer

(This is the first in a Series of Articles)

Happy New Year! We hope that everyone will have a great time in 2006 with family, friends and horses.

It's been my privilege to serve as NASS Registrar since its beginnings nearly twenty years ago—a learning experience I would not have missed for anything. The "Registrar's Office" is, at present, by the bay window of my living room. If you should ever come through the Central New York area, we'd love to have you stop in—but you won't find any smart young things frisking around in business suits or machinery bussing. You will find one old lady in a chambray work shirt and blue jeans, with notebooks, file cards and lettering pen, piles of books, a piano, the coffee pot on and three "genuine Delphinian Throw-away cats (the "editorial 'we'" refers to whichever kitty is curled up on my lap at the time).

We have some "new people" among our members who may need to know about the procedures for submitting registrations, recording the sale or transfer of horses and recording other essential information about our Shagya-Arabian horses. Even long-time members will sometimes want to check on the details.

Recently, we have observed some peculiar events in regard to timely USPS delivery of both personal and Shagya mail. We can't deal with lost mail effectively unless we know about it. A few days ago, word came that some owners had sent an application more than fifteen months ago which has yet to find its way to our post office box. I don't know whether to cry or scream. The NASS Mail comes to my post office box at the local Post Office 200 yards away around the corner and down the street. I've only had access for over thirty years. No one else is authorized to open that box. If I should be away from home for a day or two, the mail is inside, dry, and locked up.

If you do not hear from us within three weeks after you sent your material, PICK UP THE PHONE AND CALL! The number is Area Code 315-662-3662. I am almost always here until noon every week day (my "Shagya day" runs from +/- 5 a.m. until I'm done, or have to be somewhere else). My answering machine picks up on the second ring. I let the machine "screen" most of my calls, but I want to talk with you.

Then report non-delivery of mail to your Post Office where you mailed it out. It's a good idea to keep notes of what you sent to us, and when, and to make photocopies of applications and other required documentation before you mail them. There is a "Form 1510, Mail Loss/Rifling

Report" which can be submitted especially if you have sent mail by Certified or Registered Mail. Considering the current exorbitant costs of postage and fees, the USPS has no excuse for not delivering correctly addresses mail, on time and undamaged. Having a record of what you sent, and when, puts some "teeth" into your statement when you report a loss. We keep a log book of all mail received, all pieces sent out and all postage used, to verify the amount spent on postage and certified or priority mail. Okay, now on to how to get the job done!

Stallion Report Form:

Stallion owners should submit a **Stallion Report** as soon as possible after breeding season is over, before December 31. The reports must be on file in order to process any registrations of foals from your stallion. If you are not sure of the information required, we will be glad to send you a copy of the NASS Stallion Report form. If you use your stallion via transported semen, a permit for those techniques must be on file, along with blood type or DNA identification. Copies of these results must be on file with the Registrar's office. The University of Kentucky has handled all our testing procedures and now performs the DNA testing procedures currently in place.

Registration Application Form:

When we receive your application(s), we examine them to be sure all information is provided, drawn and written in parts of the description match, and necessary documentation and correct fee(s) have been provided. If everything is in order, we send you a letter of acknowledgement, confirming receipt of your application, documents and payment, stating the registration number assigned to each new entry, or horse. We report a receipt of payment and forward your payment to the Treasurer by Saturday of the week of receipt if all is in good form. If there is any question about information presented, fees or documentation, we contact you. If necessary we return the documentation to you, keep a photocopy, and retain your check until the records are corrected and all necessary items have been received. In either case we acknowledge receipt within one or two days.

Registration Eligibility Questions:

Owners should consult with the NASS handbook for detailed information. If the owner has any question about the eligibility of any foal, application and documentation should be submitted to the NASS Breeding Committee for approval.

The Registrar is not authorized to make approvals and is expected to contact the Breeding Committee regarding questionable applications. Nonetheless, you may contact me with your questions.

SHARONA:

For those of you who may not know, NASS' registry is officially named "The Shagya Registry

of North America" or "SHARONA".

Purebred Shagya Arabian Registration

All offspring of two ISG-Registered or NASS-registered purebred Shagyas which have been approved for purebred Shagya breeding by the NASS Breeding Committee ("BC"), or with one parent a Registered Arabian approved by NASS' BC as specified in the guidelines, are eligible for registration.

When importing a Shagya-Arabian, the importer/owner of the horse to be registered should request the Registration Form for Imported Horses (the green form) and furnish copies of its valid registration certificate from the country of origin, official pedigree, recorded ownership, and record of importation. These documents, with the required fees, would be sent to the Breeding Committee for consideration and recommendation.

Part Shagya Arabian and Part-Shagya Registration:

For "Part Shagya-Arabians" and "Part-Shagyas", the owner should submit the Part-Shagya Registration Form (the yellow form), and must provide a copy of the valid registration certificate and official pedigree of any registered non-Shagya parent, which becomes part of the registration documentation.

"Part Shagya-Arabians" and "Part Shagyas" are described in the NASS Handbook in "Appendix Registry to the Pure Bred Shagya." Part Shagya-Arabians are the progeny of one NASS-registered Purebred Shagya and one purebred Arabian. Any offspring of one NASS-registered Shagya may be registered in the SHARONA Part-Shagya Registry and will be called Part-Shagya.

If the non-Shagya parent is not registered, the owner should state the name, color, and age of the parent, with information as to its type: e.g. hunter, stock horse, pony. Again, the documentation furnished is retained and will appear on the Part-Shagya registration form. (To be Continued...)

Shagya Quiz: Can you guess this horse's lineage? See page 6

Equine Affaire 2006

By Katherine Voyer & Shelley Housh

Dave Housh, Donna Coss, Judy Moore & Shelley Housh

If you have never been to an Equine Affaire event, please make the time to go. This event caters solely to the horse person and they offer a wide range of training clinics, seminars and demonstrations, commercial exhibits and a breed pavilion. It is so exciting to see so many thousand horse enthusiasts in one place! And, for four days in a row!!! What better forum to showcase the Shagya.

This was the first time that the Shagya has been included in any Equine Affaire. The booth was solely planned, funded, and orchestrated by Shelley Housh. For those who don't know Shelley, she is wonderfully enthusiastic Shagya owner, and it was through her foresight, dedication and "pocketbook" that this event took place. I want to thank her for asking me to participate, and I have already pledged my help for the Equine Affaire in 2007.

Shelley (facing) and *KS Rubin LCR (stall)

Shelley brought her wonderful young stallion, Sterling Silver AF (*Shandor X Sapphire), and I of course, brought my new boy, *KS Rubin LCR (Paris X Rasga). Neither stallion had done anything like this before, but accepted everything in stride. They both took turns, being on display, in the Breed Pavilion. They were both so calm in the Pavilion stall that nearly everyone who saw them commented on it. We couldn't have done it

Shelley and Sterling Silver AF

alone, so Shelley's father, Dave, was recruited to help us every day. He quickly became a Shagya expert and answered all the public questions, with ease. Judy Moore also flew down to help out, and it was so nice to meet her and to talk about the horses with her. Donna Coss, also flew out to help us, from Illinois. A thank you goes out to all of our booth "experts". Between all of us, we talked until we nearly lost our voices. What a great time! It was amazing to meet such enthusiastic and dedicated horse owners. We found that the Shagya had created such a strong common thread in each of us, such that we became instant best friends!

Shelley and Sterling Silver AF

This event is held every year at the Los Angeles County fairgrounds, in Southern California. The "Affaire" at Pomona is one of three such events that are routinely scheduled every year. The fairgrounds in Pomona, serves as the host for the first of three events. The next Equine Affaire will be held in Columbus, Ohio April 6 - 9, then it will travel to West Springfield, Massachusetts, November 9-12. Please check out their web site for more information at www.equineaffaire.com.

There were many breeds represented in the Breed Pavilion. Each breed set up their own booth to present information and videos about

*KS Rubin LCR

the breeds. The "display" horse spent time in an adjacent stall, where the public wandered by, numbering in the thousands each day. The Equine Affaire also schedules breed demonstrations which are included as part of the Equine Affaire's education oriented program. Each day, the horses were scheduled to represent their breed, inside the Breed Pavilion, along with the accompanying "Shagya people" to answer questions. Thousands of people meandered by our Shagya's and stopped to comment on how beautiful they were, how quiet they were, and to just ask, "What is a Shagya?"

*KS Rubin LCR

On Sunday, our Shagya's were presented in hand in the main outdoor arena, as a script prepared by Shelley Housh, was read by the announcer. The horses were beautiful against the backdrop of the crystal clear San Gabriel mountain range, palm trees, clear blue skies, and all in the mid- 80 degree temperatures.

The four days were long and sometimes pretty intense, but the positive public attention that we were able to bring to this rare breed, over such a short period of time was amazing. This is a fabulous forum to present our noble Shagya horses. Please make plans to be a part of, or attend the Equine Affaire in Pomona next year. It will be held February 1 - 4, 2007. See you there!

Kentucky Dressage Association Show

Member Profile

My name is Monique Vincent, I am the proud owner of MJL Olivia and a lifetime member of NASS. Olivia came to me about a year ago after having been started in a dressage barn by Patty Saddler in Lubbock, Texas. Olivia has finished out at 15.2 hands and about 1250 lbs and her look also has developed a lot more depth (the picture above is from about two years ago). When Olivia came to me she was introduced endurance riding. She took well to it from the start. After one short month she was taken to her first ride—a 35 mile ride in southern New Mexico. She completed the distance in 4 hours and 45 minutes. Olivia then went on to complete two other tough limited distance rides in the 2005 season. By the start of the 2006 season I felt like Olivia was ready for multi-day rides. So a year to the date of her first completion Olivia started her first back to back limited distance rides. On February the 11th 2006 Olivia started a 35 mile limited distance ride along with 7 other horses. All day long she did not miss a beat. We pulsed in to complete the ride in second place and were also awarded the Best Conditioned award. On the morning of the 12th of February Olivia looked good—no stiffness or soreness, good energy, so we went ahead and started her second day of riding. Again she looked really good all day. We placed first and were again awarded the Best Conditioned award. Olivia is now in the pasture enjoying a well earned rest. I hope to continue with Olivia in multi-day limited distance rides for the 2006 season before moving up to the 50 mile distance for 2007.

Shagya Show News

Pacific Coast Arabian Sport Horse Classic

The Pacific Coast Arabian Sport Horse Classic is April 28 - 30, at Starr Vaughn Equestrian Center, Sacramento. If we get enough entries and sponsors they will have Shagya in hand, dressage and under saddle classes. Please present your horses at this event! Last year 10 horses participated and we look for another fine showing! See Judy Moore: Shomani@sbsglobal.com

NASS will be sponsoring a Shagya Class on May 24, in the Cosequin Breeders Classic I series of the **KDA 20th Annual Spring Dressage Show**, at the **Kentucky Horse Park**, Lexington, KY. This is a wonderful opportunity for NASS registered Shagyas to compete in a public venue similar to the quality of the Devon Horse Show. For more information contact Linda Rudolphi at rudolphi@agristar.net or see www.showsecretary.com/2006KDA.asp

Midwest Horse Fair

Terry Hey has organized a Shagya Arabian presentation at the **Midwest Horse Fair**, Madison, WI, www.midwesthorsefair.com, April 21 - 23, 2006. Please contact Terry for more information soosity@aol.com and make sure to visit the fair! *****

Ghazzlan: A Story of Linebreeding in Denmark

by Eskil Vad, Denmark (Translated to English)

The year 2005 once more brought one single stallion for the Danish Shagya Breeding Approval, but we are talking about an unusual stallion: Ghazzlan (Ghazir x Radonna by Radautz), (above photo) who was bred and is owned by Gitte and Jørgen Hoberg, Denmark. He is not only quite a big stallion, even though he is a late born 3 year old stallion (4 years in 2006), he measures 162 cm and he looks more sporty than we have seen in many years. At the same time he has good movements and has a very good temperament. What makes him extra exciting is his pedigree: it gives him big promises for power of penetration, which I will try to show in the following sentences.

Ghazzlan is a very exciting and well thought out combination of the best bloodlines in the Shagya breeding. In his pedigree there is the best way made line breeding of Shagya XXXVI, which is known as one of the best breeders of type in Babolna, and by the way father to the well known Shagya I (DK), who among others were the father of Shagal (DK), even over Gazal VII

who was named stallion of the century. With 19 licensed sons in Germany and incredible high licensed daughters which many of them again had the quality to become mothers of stallions. As such he has a lot of grandsons who have been able to continue the line after him.

Gazal VII was well known as producer of really good competition horses, and he had the ability to give very good movements to his offspring with very good type and size. His offspring did very well especially in jumping and military. Several of his offspring have been selected in Hanoverian and Trakehner breeding associations and made independent lines, a single line has continued in Australia and New Zealand and is quite popular.

Ghazir, Ghazzlan's sire, (above) was one of the few Danish Shagya stallions to get national as well as international gold medals. He was especially known in the Danish Shagya breeding Society (DSAH) as a stallion who was the best to produce type and movement. He made the most homogeneous offspring selection (5 representatives) which has been seen until now in Denmark with 23 points (24 points is top score).

Radautz, (below) Ghazzlan's grandsire, was an unique stallion, he had a very incredible exterior and he had an exceptional capacity. Radautz is probably the only breeding stallion who has been able to perform and win the Grand Prix classes in endurance, jumping as well as military. His personal jumping record was 210 cm. He is one of the relatively few Shagya stallions who have been mentioned in the German Jahrbuch (Year book). In the year book the stallions are mentioned by the offspring prizes and even so

many years after his death there are still offspring, which can raise his name by winning prizes in Germany. He was well known as father to high licensed stallions in German and Dutch breeding, furthermore he was especially known as one of the best stallions in the Anglo Arabian breeding programme by in Germany. In Denmark he is among others the father to the super mare Soebo's Tandara, the mother of Mon Ami

Ghazzlan's dam Radonna by Raduatz & foal Ghazia

AA, licensed in DSAH, Danish Warmblood and British Warmblood. Radautz is furthermore grandfather to stallions as Hector AA, Mango AA, Mariegarden's Call AA, Sonny Ace AA and not at least Doncaster AA, which today is used in Holsteiner breeding besides an international jumping career. Radautz was by his 163 cm, 21 cm bones, a relatively big and strong Shagya stallion and was known to produce movement, type and size, as well as an incredible good temperament and extremely good riding ability in offspring.

Shagal, (sire of *Shandor and *Budapest) the sire of Ghazzlan's grandmother, became the first Shagya stallion in Denmark, who reached licensing in Danish Warmblood Society and he also got licensing in the Trakehner breeding society both in Denmark and Germany, and furthermore Shagal was an improver in Babolna where the horses were much to small and insignificant and he left behind several licensed sons and grand sons after him, in both Germany and Denmark (and U.S.A.). Shagal was by his 165 cm the first stallion in Danish Shagya breeding that had a size, which also competitors could accept. Shagal also reached national and international gold medals.

The mother line of Ghazzlan is also very special as he is linebred to one of the best Shagya mares in Denmark through the years, Anja, who among other things was the mother of Ghazir (DK), Ghazzlan's father, and at the same time grandmother's mother to Ghazzlan. Anja made a lot of top mares with different stallions, and a lot of these mares continued her success as Anja's family is the leading line in Denmark.

The most important of Anja's daughters has to be Aggie, who has been founder of first quality mares which some of them has reached recognition in the Trakehner breeding in Denmark,

beside of their recognition of DSAH, and she is mother to the selected stallion Bravo Bajar (by Bonjour Bajar). Another daughter of Anja with a very big value for the breeding is Ghazzlan's grand mother Shanea, Radonna's mother, also have made two selected stallions, Bashan by Bouquet, in Norway and Sweden, and Arshan by Artaxerxes (DK), in Sweden, both especially large framed stallions, so maybe Shanea will become as important in Norway and Sweden as Anja has become to the Danish breeding. There are three stallion mothers in Ghazzlan's mother line.

Ghazzlan in training 2006

This deliberate line breeding is expected to result in a very secure breeding, where one can expect offspring with type, size and top movement, combined with a good temperament. With the right combinations there could be a possibility of brown offspring, as Radautz was brown, and he had the power of producing colour. Anja's mother also was brown, so there should be good chances to produce colour!

FARM NEWS

Terry Hey
soosity@aol.com

The news from Sioux City is that I am now doing regular under-saddle rehab with Count, and so far, so good. He has suffered muscle atrophy which has made him asymmetrical: his left side is lower than his right, and his heels have contracted. . . this has complicated things a bit, but I have been riding him for short periods each night after work for the past three weeks. We started with 15 minutes of walking, and are now up to 25 minutes. I think there has been some improvement, but it's a bit hard to tell when you are that close to a situation and I'm trying very hard not to obsess about it. His heels do seem to be expanding a bit and the farrier is coming out a bit more often, and slowly his muscles are building up. I am confident he'll be ready for the Midwest Horse Fair in April, which is our second big piece of news: NASS has been accepted to participate in the biggest horse expo

in the Midwest: the Midwest Horse Fair in Madison, WI. Holly Beach and Blixten AF will be joining Phil and me, along with Count and Flow, to represent the Shagya breed. Holly is planning to show off Blixten's Prix St. Georges level work, Phil will present Flow in harness, and I will simply dress Count in dressage tack and show off his gaits. . . he won't be ready for anything fancy but he should be able to help Blixten and Flow in demonstrating those wonderful Shagya gaits. I'm in the process of choosing music (something Hungarian maybe?) and writing the script for our organization/breed demo, and also for the Parade of Breeds. We hope to attract a few more Shagya enthusiasts to participate next year - it should be a lot of fun. Hopefully we'll have some more news and photos on how it all went for the next newsletter. In the meantime, we can all look forward to shedding season. . . .

Terry & Phil Hey

WineGlass Farm - Illinois
rudolphi@agristar.net
www.wineglassfarm.com

Our family had the great experience of spending Christmas in Rome and Germany. We were able to obtain tickets for Christmas Eve mass in St. Peter's Basilica, an awesome experience. The inspiration of the Vatican is balanced by the reality of Italian taxi drivers peeping their horns and driving with joyful abandonment. We then toured the Bavarian region in Germany taking in all the castles and palaces that our flashing cameras could handle. We spent New Year's Eve day and evening with the Huber's. Our son is working in the Lake Constance region, just a few kilometers from Dr. Huber and his wonderful family. They have been extremely kind to John and allowed him to paint stalls and stack hay so he feels like he is home on the farm. Dr. and Frau Huber live in Bodensee on the banks of the lake. The view is spectacular. From their kitchen you can see Austria, Switzerland and of course Germany. Frau Huber and the girls, Dorle and Imme, had prepared a wonderful brunch of weiswurst (a wonderful white sausage you eat with your hands and dip into a sweet mustard) and an endless array of the many excellent native breads and pretzels. The dining room was filled with beautiful hand painted cupboards belonging to his mother and brought from Romania. We were also able to stroll along the frozen shoe of the lake to absorb the phenomenal scenery. Then off to see some horses!! Of course the first horse was the proud and noble Janus. He did not disappoint us and gladly struck his famous pose of one outstretched front leg for us to photograph. Then a wonderful demonstration of Dr Huber free lunging 4 horses at one time! Diogal was the patient and obedient leader of the foursome listening intently. Behind him the younger horses participated well but had to dance periodically with energy while obeying the commands. We also visited Dorle's twin mares, which immediately respond to her call. I especially enjoyed

seeing the mare Dr. Huber brought from Romania, an excellent mare with wonderful sport horse conformation. She literally searches Dr Huber from head to toe looking for treats, which she usually finds. The Huber's then treated us to a breath-taking ride in a huge gondola, dogs and all, up the Pflaender Mountain very close by in Austria. The view over the Bodensee area with the lake, mountains, a perfect snow cover, vineyards and apple orchards was beyond pictures. Back at the house Frau Huber quickly made a delicious meal of my favorite food - spaetzle. We watched videos from Walters' visit to the Cooksley ranch in Nebraska a few years ago. Frau Huber presented us with wonderful sweet bread looking exactly like the face of a pig (my husband is a swine veterinarian). It was a wonderful surprise - and tasted good too. For New Year's Eve fireworks are lit throughout the countryside and reflect off the Lake, a perfect way to end a good year and start a new. I will post some pictures on our website at www.wineglassfarm.com. I am also trying to make a collection of all the *Budapest or WineGlass horses on our website, so if you have great picture to share, send it to me. It will be interesting to see where all the different horses are throughout the country.

Whistling Wings Ranch - MT
nort@blackfoot.net

Bob and I are still working to get our new property horse proofed! We just got through fencing the entire 28 acres a couple weeks ago. Bob has also been busy rebuilding and adding to our existing barn. We have two nice stallion paddocks and two main pastures. Bob also built a nice arena and expects me to get going on Shandor's Charisma as soon as the mud dissipates a little bit. We have had a very mild winter here in western Montana so far. The worst was before Christmas with a foot of snow and 10-below zero, but since then it has rarely been freezing, hence all the mud. Erik, our 5 year old stallion, is getting ready to resume his training and we are gearing up for a busy 2006 show season.

Robert & Doris Newton

Lone Peak Shagya Arabians - UT
roman@alphacabinets.com

We had winter too exciting by far. In December my beautiful filly Elodie (Feuertanzer x WS Emilagra) - was attacked by a mountain lion just before dawn one frigidly cold morning - she survived and will be fine -we decided she must have been saved by her mother, for surely she was too small to fight the lion off her back by herself. Milagra (Shandor x Echo Doll) continues in the brave tradition of Adele Furby's Biala; some of you may remember this beautiful mare who fought off a bear in an attempt to save her foal. Milagra also has the Mark of Clover on her nose - a Hungarian legend states that horses born with this mark (most often small chestnut mares) are incredibly brave and loyal and must never be sold from the farm of their

birth - no chance of that here! Anyway I now have motion sensor lights around the barn, the horse are locked in the barn at night, and all the brush and trees around the paddocks have been cleared away. Double fencing is in the works. On a brighter note Elodie was weaned a month later and Milagra is happily back to work under saddle. I took her to a clinic by Coralie Bradley, a Portuguese trainer familiar with working with the lighter Iberian breeds, and she was very complimentary about Milagra's gaits and work ethic. Plans are also in the works to take Shagya's Sprite (Shandor x Shagya II-2) on her first fox (coyote) hunt with the Juan Tomas Hounds in March. So spring is coming and we can all enjoy riding our horses and looking forward to the foals of 2006 - good luck everyone!

Kathy

RAA's Shagya-Arabians - B.C.
boothcreek@cyberlink.bc.ca
www.boothcreek.com

What a year!!! After the Hypothyroidism foals in 2003, a breeding break in 2004 after we found the reason for Hypothyroidism. We started again with breeding our mares Philomena and Dahri. In May after coming home from my night shift (as fresh happily separated mom I have to work now) Matala (Philomena/Murad) just began to be born. Black/bay lady- a eye-catcher- conclusion of mom and dad- and healthy!!!! She kept us 2 months busy for searching for one grey hair- she looked like she will stay black later. Few days later her half-brother Marid out of Dahri was born, definitely grey, more the type of his mother and healthy. Nobody can imagine how wonderful it was for us- two healthy foals!!!! Both were fun to watch the whole summer in growing and in character. Both are for sale, we decided. In July we bred our mares Dahri, Philomena and RAA's Pasheera, lets see which surprise June 2006 will have for us. These foals will be for sale either. After this we will make at least 1 year may be two years breeding break. Murad won't bother, I guess, his beloved mare can't get pregnant anymore, she loves him until he is running away and turns in heat every 23 day. What a happy stallion- huge field and a nice lady side by side. This January RAA's Matala turned quiet and stopped eating. At a Sunday it began and at the following Friday she was dead. A bad pneumonia were even in the clinic to much for her. We had to put her down. The check up of all other horses showed, all healthy- RAA's Marid, now a (hopefully) happy gelding, (his father is not that busy, that he needs help of his son) is a strong beautiful boy with a wonderful dressage canter and is for sale. We want to reduce our herd, also some Egyptian and Polish Arabs and one Anglo-Arab mare, which looks like a perfect Shagya mare. May be a good reason to visit British Columbia.

Anke Querbach

I am proud to announce that Michael and I were

awarded by the Snohomish Conservation District as 2005 Merit Farm for Conserving Natural Resources and Protecting Water Quality. The Award was given to us after we had done several improvements to our farm. We are not only protecting our Environment but are mostly mud free which is a great thing for our horses, especially in the Seattle area. We are going to have several farm tours at our place over the next couple of months to show people around the Farm and we also hope to use it to introduce the visitors to Shagyas.

Purebred Shagya Colt

***O'Bajan Spirit** (Pamino x *Gazal XV-5) Imported 2003 purebred black colt by the Champion Shagya sire PAMINO. Wonderful type (scored 9 for type at foal inspection). Beautiful head and upright neck for which his sire is famous. Good conformation and movement. Bloodlines proven champions in sport and in-hand. 15.1+hh

Purebred Shagya Filly

Gazal Starburst (Gazal XVIII x Gazal XV-2) Imported 2003 gray filly, feminine, wonderful Shagya type, good conformation with especially good hindquarters, shoulder and neck, correct rhythmical movement (scored 9 for type & 8 for conformation at foal inspection). Grandsire is the famous dressage stallion **Saphir I**. 15+hh

Pauline Milnor
Paulinemilnor@mac.com 505.532.5010

Purebred Shagya Gelding

Balance AF (*Shandor x Bint Neferet ox) Approved Shagya gelding, 13 years old, 16.1 hh, grey. Registered Shagya, Half-Arabian, and American Warmblood. Trained through 1st level dressage. Jumps up to 2 1/2 feet. Primary focus of training is dressage. Asking \$4500.

WineGlass Farm - IL
Budapest@wineglassfarm.com 618.752.7171

Part-Shagya Arabian Gelding

WineGlass Victory: (*Budapest x Faith (*Shandor x *Biala) 2004 grey gelding. This boy keeps growing! He is running in a large field so

he will be a big and strong gelding for a very lucky person.

Adele's Shagyas - MT
adele@blackfoot.net 406.644.3498

Purebred Shagya Colts

Rio Bravo AF (Janos x Rachele) Stout, typey bay yearling stallion prospect with some white. Beautiful head and conformation, gentle but showy personality, correct, excellent movements. Will be big. My premium broodmare's last foal! Can produce black foals.

Shagya Skamp AF (Janos x Samantha) Samantha has outdone herself again with this dark bay foal stallion prospect! No white except for face markings, he's typey, correct, a great mover and incredibly friendly. The best moving foal I've seen from either parent! Can produce black foals.

Purebred Shagya Fillies

Nicolatina Star AF (Starwalker x *Nicolette) Yearling dark grey filly out of the big, bold, athletic imported mare *Nicolette by the great dressage Shagya, O'Bajan 1-10. Excellent type, movement, personality. Very high percentage Shagya blood.

Nina AF (Janos x *Niobe) Yearling filly out of the outstanding imported mare *Niobe, who has some of the best gaits and use of the back I have seen in a Shagya mare. This filly is black from head to toe and will very gradually turn grey. Since her sire is black she will be able to produce black. Excellent filly in all respects.

Elegant Star AF (Starwalker x Estelle) Weanling grey filly (bay at the moment), tall, elegant, correct, feminine, with excellent movement for dressage. Very friendly also!

Everlasting Star AF (Starwalker x Ester) weanling purebred Shagya grey filly (bay at the moment), big, stout, great mover like her full brother! Definitely a top dressage prospect.

Part-Shagyas

Hungarian Sir Bungee AF (*Shandor x H. Sziah) Tall grey two year old stallion prospect. Very handsome with extremely elastic movements (hence his name!) registered as a Part-Shagya (NASS) and Hungarian Felver (main book) with the HHAA. Will excel at dressage or combined training. Extremely friendly, laid back, with plenty of impulsion. Moves like Shandor. Exceptional conformation. 16.2hh++

Hungarian O'Baya AF (Janos x Hungarian O'Thea) Lovely yearling filly. Registered as Part-Shagya with NASS and eligible for registration with HHAA as a Felver. Coal black with no white, she will slowly turn grey, will be a black producer. Excellent type and movements--she will be big, at least 16.1. Excellent prospect.

Holiday Star AF (Starwalker x Hologram) Tall dark brown gelding out of the outstanding dressage and event mare Hologram, whose sire, the imported DWB, *Roemer, was a top 10 USDF dressage-producing horses in America. Should mature 16.2+hh. Excellent movements, elegant type, very friendly. Future top sporthorse.

MAX (*Amurath Samurai x *Kornelia)

MAX is brave, strong, courageous and kind! Well-mannered with good bone, he seems the spitting image of his sire, *Amurath Samurai. He is refined in his gallop, collected in his canter, efficient in his trot, and brisk in his walk. In short, nothing he does wastes a lot of energy or could result in danger to himself or his rider. He has a strong desire to please combined with plenty of enthusiasm to have fun. Much like his sire, he should pass these traits on well. We think he's a cutie, too!

North American Shagya Arabian Society Update Policy

NASS' "SHAGYA NEWS" is a tri-annual publication (or "newsletter") designed to keep NASS members informed on a timely basis of current news of the NASS organization, its members, & NASS' parent organization, the ISG. In years of NASS Inspections there will be a fourth issue dedicated to the Inspection and referred to as the "Inspection Issue". Other information of general interest to Shagya Admirer's: such as articles on horse management, training, breeding, etc. can be included if space permits.

The Newsletter will include (but is not limited to) the following topics: Committee Reports, Clinics-Shows-Open Houses, Farm News (not to exceed 200 words in length), ISG News, HHA News, New Foals, New Horse Owners, New Members, Articles of Interest on horse management, breeding, etc. if space allows, Classifieds, *List of NASS registered horses for Sale, Calendar, and Half-page and Full page Advertising.

Advertising: **SEE ABOVE CHART**

All horses advertised for sale must be registered with NASS. All Shagya-Arabian and Arabian stallions advertised for breeding must be registered

with and Approved for Shagya Breeding by NASS.

Sale horse information in the listing may include: name, sire & dam, measurements, age, color, markings, & level of training. Ads are limited to 25 words per horse. Prices are permitted for horses for sale.

The SHAGYA NEWS newsletter and Inspection Issue will be assembled, edited and printed and mailed by an Editor. Prior to Publication they will be reviewed by the NASS President (and the other BOD members as required) to insure appropriateness of the material.

Letters, articles and advertisements from members reflect ONLY the opinion of the author and not of NASS. NASS cannot be held responsible or liable for ANY wrong or misleading information. NASS reserves the right to refuse anything submitted for cause.

Submissions to the Newsletter, including advertising and sponsorship should be directed to the Editor. Payment (in US Dollars) must be received before publication deadlines and should be made out to NASS noting reason.

Contact the SHAGYA NEWS Editor for additional information.

The International Shagya-Arab Society

The Shagya-Arab – the alternative Arabian!

Like the purebred Arabian the Shagya-Arab is expressively beautiful but has a larger frame and more caliber and is especially suited for

pleasure, competition and endurance riding, hunting and harness.

The Shagya is everybodys' horse!

Website: www.shagyas.de

The ISG is the umbrella organization including the national associations of Austria, Bulgaria, Denmark, France, Germany, Hungary, Norway, Sweden, Switzerland, Tschech Republic, USA and Venezuela plus the state studs of Bábolna (Hungary) and Topolcianky (Slovakia).

The ISG unites, informs and supports the breeders and friends of the purebred Shagya-Arab worldwide on the basis of the breeding systems of the Austro-Hungarian foundation studs of Bábolna and Radautz.
