

# How to Reduce Local Taxes While Increasing Efficiency

By Paul J. Wickliffe, author, historian, horticulturalist (40 yrs.), Bible researcher (49+ yrs.), Deep State analyst (49+ yrs), digital warrior, believer in Jesus Christ (the seed of the woman-Gen. 3:15)

Monday, January 5, 2026

1. Bring government pensions, hourly wages, benefits, sick time, vacation, and maternity leave, into parity (equality) with those in the private sector
2. Eliminate affirmative action and DEI practices while instituting meritocracy, namely the best qualified for the position
3. Utilize performance reviews while eliminating guaranteed and incremental promotions and pay raises for each governmental position
4. Eliminate tenure or the idea of retaining incompetence and seniority at the expense of ability and performance
5. Eliminate the un-American concept of egalitarianism systemic within unionism, where innovation, invention, and collaboration are stifled, while individualism in the workplace is surrendered for the collective welfare of all. Replace this with the already evident employee-owned mentality within numerous successful companies allowing all members to contribute equally with a financial stake in the company's overall success
6. Essential services such as: fire, police, ambulance, sewer and water treatment, trash, road maintenance, parks development and maintenance, snow removal, that most people would consider necessary, while considering:
  - Electricity, a private sector essential service, will be compelled to keep prices down as fusion energy, Tesla free energy, and other forms of limitless energy generation, along with their patents, are released. This IS coming once the EBS (Emergency Broadcast System) is deployed and:
    - quantum technology is publicly released
    - the quantum financial system is backed by gold, silver, and platinum physical assets as well as their

representations: XRP and XLM tokens, U.S. Rainbow certificates or notes

- the financial middlemen, namely non-compliant Basel III banks and credit unions, will NOT be servicing Tier 4a and 4b recipients. Those concerned and informed about our Constitutional Republic, better known as the enlightened,<sup>1</sup> will obtain quantum phones and laptops, while their access to redemption centers will permit their financial transactions to be performed seamlessly, efficiently, securely, transparently, and finally, in a decentralized manner and without latency
- quantum voting assures honesty and integrity in elections as we see: mail-in voting eliminated, paper ballots issued to individuals possessing authentic government issued i.d.'s, one day voting (a federal holiday), drop off boxes eliminated, dead voter rolls purged, voter results available same day or early next day, elimination of illegals from the voter rolls that were inserted during the last illegal Democrat-driven census of 2020
- Education is NOT a responsibility of the government but of the parents whose voluntary payments should be directed to: private schools, charter schools, home schools, or a Trump Academy (funded by tariffs and a 14% consumption tax)
- Duplication of services, waste, fraud, and abuse, an absence of accountability, and the absence of a competitive component

---

<sup>1</sup> Many of these individuals will possess foreign currency, humanitarian initiative trusts, completed living trusts or wills, disclose how they plan to manage their finances, and have verifiable proof of citizenship and residence.

within government has always led to an unruly, unresponsive, and abusive public leviathan

- **The critics of these conservative measures are always the politicians who serve themselves and those who benefit from political graft, better known as crony capitalism (corporate cartelism)**

7. All of the wealth that has been stolen from the American working class and retirees will be returned through reclamation, restoration and restitution, namely presidential Executive Order 13848—seizure, relinquishment and return of stolen American assets. This confiscation of working-class productivity and wealth spans the gamut from: day care fronts, to high-speed trains to nowhere, religious front groups (Vatican banks, their surrogates, and property), to orchestrated trade imbalances and domestic overregulation that has resulted in the outsourcing of U.S. jobs and businesses to hostile foreign countries possessing anti-American interests. These unconstitutional behaviors and practices will cease.
