Suited For A Park

Congress Could Lose Power

Anvone who has seen the Lehigh Parkway or the Cedar Crest Parkway in Allentown knows what a well-kept park area can do for a town

A creation of a park through the middle of Stroudsburg was suggested to the county commissioners by R. M. Hoot of the Pocono Mountains Chamber of Commerce and Stroudsburg Mayor Joseph Small. They wanted matching state funds through project 70.

They were too late with their suggestion. There was not enough time to research the financial ramifications of the purchase of the 30-odd acres along Mc-Michaels Creek to include it on the county's Project 70 application.

But the matter should not be dropped. The land is too perfectly suited for a park to let it be chopped up into small parcels for more buildings.

The tract starts at the Fifth St. Bridge and runs west under the Seventh St. Bridge and along the creek to the confluence of Pocono and McMichaels Creek.

In effect, it would run the length of the business district of Stroudsburg and would be readily accessible to most of the people in the borough.

As Small said to the commissioners "I know many people who carry their

Value Of Graham Crusades Seen Going Down Drain

It quotes Dr. Floyd Faust, one of these ministers, who wrote in the Columbus Citizen, April 6, 1964 in which he said, "As you look at the Cross never say, 'this is the will of God'. Jesus' death on the Cross was not the will of God . . . 'In Vivo' Account Of Trials, Tribulations Of Drug Lab

By Mildred Savage 639 pages, \$5.95, Simon & Schuster

In her second novel, "IN VIVO", — her first was the successful "Parrish" (1958) — Mildred Savage has given us an accurate if sometimes fem-inine-coated account of the trials and tribulations of a small, self-righteous, conservative

scientist in educing a new antibiotic drug. In the initial experimenting, she convinces the reader that the drug will eventually engender about as much curative power as jello.

Goldwater Nomination 'A Mistake'
