Cover designed by Ken Hill

Brief were my days among you, and
briefer still the words I have spoken.
But should my voice fade in your ears,
and my love vanish in your memory, then
I will come again,

And with a richer heart and lips more
yielding to the spirit will I speak.

Yea, I shall return with the tide,
And though death may hide me, and
the greater silence enfold me, yet again
will I seek your understanding.

And not in vain will I seek.
If aught I have said is truth, that truth
shall reveal itself in a clearer voice, and in
words more kin to your thoughts.

"I graduated from Cal Poly in December, 1967, and received my elementary teaching credential in the summer of 1968. I taught 4th grade in Santa Maria that year and was married to George Shaw in December, 1968. In June, 1969, we moved to Sunnyvale, California, and I taught 4th grade in San Jose, Calif., that year. In June, 1970, we went to Corvallis, Oregon, to live where George now is Estimator/Expeditor for the Oregon State University Dept. of Printing. I taught first grade in Corvallis for 2½ years, but recently retired as we had our first baby, Julie Elizabeth, born on June 16, of this year.

We have a house in the country, 7 miles outside of Corvallis, with a lovely view of the Cascade Mts. We have a large garden each year and have lots of fruit trees. We are both real "Oregonians" now, with weles (?) between our toes from all of the rain and hope to live in Oregon for many years to come.

Interests include: gardening, cooking, sewing, working at a camp for the mentally retarded, canning fruits and vegetables in the summer, camping, exploring all over Oregon."

Clifford R. Chelquist

San Luis Obispo, California 93401

"Upon graduation I entered Cal Poly and for the next several years attempted, quarter by quarter, to stay in without doing any work. During those years I concentrated on ruining my health and having a good time.

Finally the United States Government took note of my situation, and in order to save me from leading an ideal life they drafted me. After attempting to train and indoctrinate me in the ways of the Army I was sent to Thailand to do my time.

At about this time another force moved to change my life style, I married my wife, Diane. As a natural course of events, we now have a son, Kirk, three years old. Having always been one who believed that if a little is good then more is better, we now have another tax exemption on the way.

After both the Army and I decided that we were not meant for each other, I returned to old S.L.O. In a short time I found that I was in need of a method of supporting myself and my family.

In 1970, I went to work for the local law and have managed to sneak myself into a sergeants position. In the last ten years I have reversed the old ways, instead of riding around trying to avoid the law I find myself trying to enforce it."

Richard Clark

Boron, California 93516

"After high school I attended Cal Poly one year. Then I spent two years on a mission for the Mormon Church in Minnesota and Canada.

After returning I spent four more years at Poly, graduating in summer 1969, with a B.S. in math. I finished my credential requirements and M.A. in education in the summer of 1970, and moved to Boron to teach math in the high school.

We have been here three years (Boron is in the Mojave Desert.) For the past two years I have also taught a class on the Bible to high school students at the church from 6:00 to 6:45 a.m.

Linda and I were married during my junior year on March 2, 1968. Our three children are Judson, 4 years, Phillip, 3 years, and Karen, 1 year.

I spend much of my spare time on our two clunker cars (10 and 17 years old) and keeping our house in repair."

Kathy went to Cal Poly for a year and majored in home economics. She married Fernando on August 29, 1964 and they moved to Bakersfield. Their oldest girl, Susan, was born August 18, 1965. Kathy graduated from Bakersfield College with an A.A. in June, 1967. On February 21, 1969 she delivered twins, Dale (boy) and Michele (girl). Kathy attended Cal State at Bakersfield for a while but found it too hectic trying to get Susan to school, the twins to a sitter and herself in class by 8:30 in the morning. She says she won't quit, she's just slowing down. Michael was born on April 5, 1973, and while she was expecting him she took a TV consumer course and a night school sewing class.

Kathy and her husband were co-vice-presidents of the Parents' Club at her daughter's school this year and were very involved with its activities. They automatically become co-presidents next year.

When their oldest daughter was 18 months they visited Fernando's home and relatives in Bolivia and stopped over in Lima, Peru and in Panama. Her hobbies include sewing, gourmet cooking, oil painting, keeping up the yard, swimming, and going to school.

Lorna is married to Ken Jespersen from Paso Robles. They have two children, Kristina Ann, 3½, and Kirk Charles, who will be a year old this August. Lorna attended College of San Mateo. She worked 1½ years for Dr. David Cooper in Morro Bay, and for Dr. Ted Thom, an Orthodontist, in Klamath Falls, for 2 years. Her present job is housewife, but she feels like a Ring Master for this Jespersen Circus and loves every minute of it.

Ken and Lorna were married in 1966, just before the Jespersen Bros. farming operation moved to Klamath Falls. He and his cousin, Larry, had been partners growing potatoes, grain, and alfalfa hay, until this year when they purchased a big ranch and incorporated with Ken's dad, uncle and Larry's younger brother. The ranch is undeveloped and the men are planning, improving and developing the land into a more productive cattle ranch.

At the present time all their extra time will be devoted to finishing their new house on the Edgewood Ranch. When is it done their new address will be, Rt. 2 Box 809 S, Klamath Falls. Lorna wants to do some paneling, painting and wall papering, but will have to wait until harvesting is finished or the snow flies, whichever comes first, for Ken to help her. Ken also makes a great many things out of wrought iron, which Lorna wants to have lots of.

Lorna says that they haven't traveled to any exotic lands since they've been married, but have been to Portland and the Oregon coast. She had one last fling before she got married and spent some time in Mexico City and Acapulco.

Lorna is active with club activities of Beta Sigma Phi Sorority. She loves the Klamath area, but misses the mild winters and sun drenched beach days of good ole SLO.

After high school graduation, I attended Cal Poly, San Jose State and the University of Texas, majoring in art and interior design. In 1966, I married the love of my life, Gordon Kellogg, who I had met on a blind date 3 years earlier at Cal Poly. Gordon is an aeronautical engineer who just recently accepted a management job at Northrop Corporation in L.A. We have really adjusted to big city life--there is so much to do here. The greatest thing is all the restaurants to choose from.

I have "retired" from the working world, (for now, anyway), which included 2 years of teaching in the Atascadero and Lucia Mar School Districts. That was a great and memorable experience.

I'm now spending my spare time painting and decorating the nursery. My hobbies include interior decorating, painting, buying antiques and re-working old furniture, traveling, playing bridge, spending money, and trying new restaurants in L.A.! (Oh yes! and also shopping for bargains in Mexico.)

We've traveled quite a bit in our 6 years of marriage--thanks to the U.S. Army! We lived for nearly a year in Texas and Arizona, traveling to Mexico whenever possible, and 2 years ago, we had a wonderful camping trip to Canada and the Northwest."

"After graduation I attended Highland School of Nursing in Oakland, graduating in August, 1966. On August 27, 1966, I married Jeff Warner and in September, 1966, we moved to the Portland area. Jeff is still employed with Freightliner Corporation as a senior purchasing agent. In 1967, we built and moved into our home in Milwaukee just outside of Portland. After doing a few months of private duty nursing I worked as a surgical-office nurse for an ophthalmologist in Portland until the birth of our twins--Marc Thomas and Carolyn Jeanne in April, 1969. Since then I have retired as a nurse. Nineteen months later we had another little boy, Matthew Franklin, in November, 1970. Now I spend a great deal of time as a wife, mother, nurse, homemaker all in one. Last year we bought a trailer and now spend all but the deep winter months camping in our beautiful Oregon outdoors. Other than that we keep busy with our church in Sunday School and missionary groups and bowl a couple of times a week (I'm awful but it keeps me busy.)"

Homer, Alaska 99603

After graduation Eileen went to work for the County Tax Collector's Office. During this time she met her husband, David. They were married in August, 1965. After Dave graduated from Cal Poly they moved to Santa Barbara. In February, 1969, their first son, Jeffery, was born. At that time Dave was working at Raytheon and finishing his Masters Degree in Electronic Engineering. In December, 1971, Eileen delivered identical twin boys, Gary and Michael. Soon after the boys were born they took a trip to Homer, Alaska, to look over the hotel with the idea of purchasing it. A year later there they are! Eileen says she imagined Alaska to be all ice and snow with moose and Eskimos. So far she has seen one moose and no Eskimos. They are located quite far south on the Kenai Peninsula with a spectacular view of Kachemak Bay and the Harding Ice Field. The Heady Hotel is a large two story log building. She says it's good to be there and working together in their own business. If anyone is ever up their way, look them up!

"Since 1963, I have lived in Santa Barbara, where I have worked in all phases of the food industry. During that time, I met my wife, Marcia, married, spent two years in the Navy and returned to work and Santa Barbara City College. Upon graduation, I worked as a salesman for Jordanos Wholesale produce for a year. Then went into Jordanos retail markets as a produce manager. I have since transferred to San Luis to attend Cal Poly to pursue my education. Upon graduation I hope to go back to Santa Barbara and open my own business with a friend of mine in the grocery business.

I presently have one daughter, Staci, and still, believe it or not, resume surfing, and weight train. Physical fitness is my main hobby."

Alison Tomlin Shelton

Carmichael, California 95608

After graduation Alison attended UCSB, Cal Poly and finally Sacramento State where she received a B.A. in English and history and a secondary teaching credential.

In June, 1966, she married Dick Shelton. He taught high school for several years and is now in real estate. (They got their licences together, but Alison says that she's not the greatest thing at real estate.)

They have a daughter, Laura Ellen, who was born in January 1970. They still have two dogs, but have also had ducks, fish, parakeets and a love bird (which was so vicious that they had to get rid of him.)

For the last two years Alison has taught English and speech at a local high school. She will probably teach one more year and then retire (she hopes!). Their hobbies include working on the house--wall papering, painting, etc., and tennis and boating.
