

Caitlin Gotze **DIED** aged 23

covid vaccine:
Pfizer BioNTech

Source:
covidvaccineinjuries.com

Testimony from her mother Raelene. "Caitlin was tall, strong, fit, muscular and hardworking. Her 6 day a week job entailed 20 km per day walking two year old thoroughbred racehorses and manual work. **She died at work, on shift.**

My beautiful, vibrant, healthy and fit daughter, Caitlin, died on Wednesday 17th November 2021. Her horrific death at work, was preceded by three weeks of illness immediately following her second mandated (by Qld Racing) inoculation."

 Justice4Caitlin was  thinking about someone special. ...
27 January · 

Caitlin Gotze was 23 years of age when she died on the 17th November 2021.
From a very strong, healthy, vibrant, hardworking young woman, to dead at work.
My name is Raelene.
I am Caitlins mother.
Caitlin is my best friend and my world.
I WILL fight to my death to bring light to the true cause of Caitlins murder.
I WILL ensure the public is aware that one linked death is NOT acceptable, and that death could be your loved one.
I WILL ensure [#CaitlinsLaw](#) is introduced Australia wide, to give people CHOICE over their own medical treatment.
Please help me 🙏
