

20TH CENTURY CIRCUS & CARNIVAL SIDESHOW HIGH VOLTAGE ELECTRICAL ACT

Experience the most spectacular sideshow event replicated live for your wonder and amazement by Professor Sparks and Miss Electra. Witness what you would have experienced if you had seen this exactly as it was performed in the early 20th Century at circus and carnival sideshows.

MISS ELECTRA DEFIES DEATH IN THE ELECTRIC CHAIR

Having been struck by lightning as a small child, Miss Electra has since been completely impervious to the effects of electricity!

Energized at 20,000 Volts in the electric chair Miss Electra lights lightbulbs in her hand and creates flames from her fingers!

Professor Sparks & the Half Million Volt Tesla Coil

Professor Sparks performs spectacular demonstrations with the Tesla coil. Passing high voltage electricity through his body to light the stage and to fragmentize objects with sparks flying from his fingers.
