

WATER LEAKS ARE COSTLY \$\$\$

Solution for Water Mitigation

Designed and
made in Ukraine

With our AJAX System leaks Protect®, the water line is shut off instantly or the sump pump is started to prevent the damage.

Upon activation, the AJAX system simultaneously contacts maintenance personnel to repair the damage.

Signals penetrate through multiple floors and long battery life unlike other products in the industry.

Excellent for -High Rise Buildings -Hotels -Cottages -Industrial -Labs -Yachts or anywhere water flows.

Call us today for a free estimate and save the headaches of water damage.
