

In this time of political division, pandemic, it is time for solutions that give our citizens a hand up with empowering and engaging them through collaboration. **Regener8tive**, will help build the America of the future as a nation of equal and accountable peers not dependents via Accountable Handup Investments.

RISE UP Teams

- 10 or more citizens come together to provide 1 page solution.

Grow Main Street Businesses

- Crowdsourced and crowdfunded investment and engagement platform raising up the middle and working classes through development of main street businesses and community-based incubation of cutting edge ideas.
- Community identifies and judges which solutions are most compatible to regenerate communities

Fund Entrepreneurs & Startup

- Directly or through participation in mass events.
- Return 90% + to investors while creating a perpetuating investment fund that passes 30% of the profits of today's investments to tomorrow's next entrepreneurs and community development ideas.

Capitalize Community Assets

- Corporations, celebrities, and government disaster recovery funds looking to rise up but not distort the voice of communities and disadvantaged individuals are welcome to invest matching funds that will not direct but instead follow the groups decisions about which community-oriented investments are most promising.

Accountability and transparency matter.

- Provide expert financial analysis of potential investments, mentorship plus critical management infrastructure that will be shared with the voting community.
- Results will be shared with other cities so we can rise up together.

Our founding community includes nonpartisan entrepreneurs, investment professionals, opinion leaders, communications professionals, philanthropists, and others from all backgrounds.

Interested? We're looking for seed investors and partners. Contact us today!
