Nature Astronomy, 2, 596-599. Sources for using APA style sources in APA style sources for writing an APA style reference list including citation formats. Note. This page reflects the latest version of the APA Publications Guide (i.e. APA 7) published in October 2019. The source for the old APA 6 style can be found here. These rules for handling single or multi-author works apply to all APA style references in your reference list, regardless of the type of work (book, article, electronic resource, etc.). Note. Because the information on this page applies to almost all citations, we've highlighted some important differences between APA 6 and 7 by underlining them in red. The author's last name is written first, followed by the author's initials. Ahmed, S. (2012). On Inclusion: Racism and Diversity in Institutional Life. Duke University Press. Two authors are listed by last name and initials. Separate author names with a comma. Use the symbol "and" instead of "and". Soto, C.J., & John, O.P. (2017).Last name of the last author. Nguyen, T., Carnevale, J.J., Scholer, op. Cit., Miele, D.B. & Fujita, K. (2019). Metamotive knowledge about the role of high and low levels for targeted tasks. Journal of Personality and Social Psychology, 117 (5), 879-899. List of more than twenty authors according to surnames and initials; Disconnect the car names with a comma. Use the names of the first 19 authors instead of the names of other authors. Then conclude with the last author's last name (put no commercial and progress). The quote must not contain more than twenty names. Pegion, K., Kirtman, B. P., Becker, E., Collins, D. C., Lajoie, E., Burgman, R., Bell, R., Delsole, R., Min, D., Zhu, Y., Li, W., Sinsky, E., Guan, H., Gottschalk, J., Metzger, e.J., Barton, N.P., Achuthavariar, D., Marshak, J., Koster, R., . Kim, H. (2019). The Pressing Experiment (SUPX): An underground forecast experiment with several models. American Meteorological Society, 100 (10), 2043-2061. Group authors can be companies, government authorities, organizations, etc.; And the group can publish the coordination with the departments. Here you simply treat the publisher organization like the name of the author and format the rest of the quota as usual. Remember to include the full name of the group author in the reference list, although an abbreviation may be used in the text. Entries in reference works (e.g. dictionaries, thesaurus and encyclopedias) are also considered works by group authors. Merriam webster. (2008). Braggadocio. Merriam-Websters advanced English dictionary for students. Merriam webster. If a work includes several levels of a group (e.g. the Bureau of History, part of the Ministry of Foreign Affairs, somewhat published), identify the most specific agency as an author and primary agencyThe author's name. Use menus and italics accordingly. For example, in the source breeds above it will appear as follows: (Merriam-Webster, 2003). Two or more works by the same author use the author's name for all records and replace articles annually (most of the population goes first). Links to list without data before data. When the author appears to be the sole author and in another citation as the first author of the group, replace one author's elements first. Agnew, C.R. (Ed.). (2014). Social influence on romantic relationships: except the tiara. Interpersonal relationships and health: social and clinical psychological mechanisms. The Oxford University Press. References that have the same first author and different second and/or third authors are organized alphabetically according to the name of the second author or the name of the third author, if the first and second authors are the same. Arriaga, X. B., Capezza, N. M., Reed, J. T., Wesselman, E. D., & Williams, K. D. (2014). With partners like you who need strangers?: Ostracism with romantic partner involvement. Personal Relationships, 21 (4), 557-569. Arriaga, X. B., Kumashiro, M., Finkel, E. J., Vanderderdrift, L. E., & Luchies, L. B. (2014). Realizing the void: strengthening attachment security in participatory relationships. Psychological Science and Social Personality, 5 (4), 398-405. If you use more than one link from the same author or group of authors listed in the same order published in the same year, they will have more detailed data (this recommendation is new, two or more works by the same author (this recommendation is more than one link to the APA 7). Works with one year should be listed only in front of people with a more specific date. A list of specific data in chronological order. If two works have the same publication date, arrange them in the alphabetical reference list below l article or chapter If you recommend itand three Fridays (attack, adaptation and affection). Journal of Experimental Child Psychology, 88(1), 1-4. The introduction, preface, preface and deputies cyttiri on publication in the book in the usual way, but the introduction, preface, preface or deputies (regardless of name) are given as the head of the book. Lang, J. M. (2018). Entrance. A Dujardin, G., Lang, J.M. and Stunton, J.A. (Ed.), teaching the literature review course For each type of source of this leadership, a general form and example will be provided. The following format will be used: in-text quotation (paraphrasing) - a record that appears in the content of the article when expressing the thoughts of the researcher or author in your own words. You can find more tips on paraphrasing in the owl. In-text citation (citation) - A record that appears in the article content after a direct citation. Link - A record that appears at the end of the article. Citation information and several examples were taken from the American Psychological Association Publication Leadership (Publication 7). editing).
