Which food was the first to be grown in space?

Potatoes were the first food to be grown in space by NASA in 1995.

How many types of pasta are there in the world?

There are over 600 different types of pasta worldwide! Each shape has its own unique name, like farfalle (bow-tie pasta) and fusilli (spiral pasta).

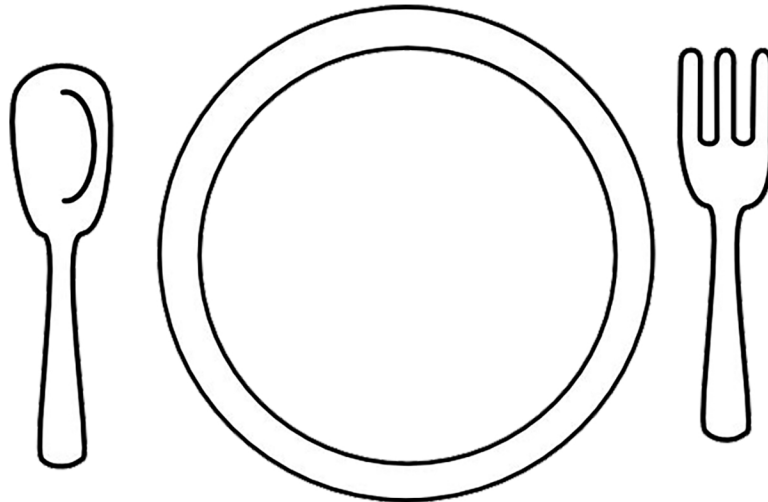

What's the world's largest pancake ever made?

The largest pancake ever made was over 49 feet in diameter and weighed nearly 6,174 pounds (3,000 kg). It was created in 1994 in Rochdale, England, and was big enough to feed thousands of people!

Which snack was invented by accident?

Potato chips were invented by accident! In 1853, a chef named George Crum sliced potatoes very thin and fried them to satisfy a customer who kept complaining his fries were too thick. The customer loved them, and the potato chip was born!
