

**Hunter School of Art
810 Brooklyn Street,
San Antonio, TX**

It is as an exceptional teacher that Warren Hunter is most warmly remembered. Many of his students include professional artists as well as individuals who wanted to learn a richer mode of self-expression. He had a reputation for teaching basic skills and sensitive guidance to help students apply those skills to reach their artistic goals. He did not believe in talent. He was adamant that talent was not worth "two hoots." A person had to have motivation and had to practice a lot!
