Course Aims

- Equip learners with the knowledge and skills to recognise and respond to signs of child maltreatment effectively.
- Promote an understanding of the legal and procedural framework surrounding safeguarding children in healthcare settings.

Learning Outcomes

- Identify signs of child maltreatment, including various types of abuse, neglect, and radicalisation.
- Understand critical issues like child trafficking, FGM, forced marriage, modern slavery, gang activity, media abuse, sexual exploitation, and county lines.
- Recognise online safety risks in social networking that affect child protection.
- Identify vulnerabilities in groups such as looked-after children, those with disabilities, and unaccompanied minors.
- Comprehend the influence of caregiver health on a child's well-being, covering domestic abuse and substance misuse.
- Recognise the significance of children's rights in safeguarding and child protection.
- Learn necessary actions for handling safeguarding concerns, including reporting procedures.
- Be familiar with legislation relevant to child safeguarding, including key Children's Acts and the Sexual Offences Act.

Based on current legislation and guidance, we recommend that this course must be refreshed depending on the advice and guidance from the learner's organisation.

Learners are strongly advised to seek guidance from their organisation
