

THE PIG ZLEEVE®

PLAINCLOTHES IDENTIFYING GAUNTLET

BY INSTRUCTOR Z

PAT. PENDING

PIGZLEEVE.COM

Thank you for your purchase!

We commend you for your decision to enhance your defensive arsenal with our Plainclothes Identifying Gauntlet®. Whether you are an armed civilian or a first responder, we thank you for your contribution to the safety of others, not just yours. By allowing uniformed first responders with the opportunity to promptly recognize you as a lawfully armed individual, you are not only achieving a tactical edge, but you are allowing others to remain safe when every second counts. Should you have any questions, please do not hesitate to contact us, your complete satisfaction is important to us. Once again, thank you! - Antonio Zarzoza, "Instructor Z" developer of the PIG zleeve and Internationally recognized Law Enforcement Trainer

SPECIFICATIONS:

- The minimalist design provides ergonomic functionality with a standard black on black presentation that blends Ottertext® Waterproof Canvas on one side, and heavy duty spandex on the other side to stretch and adjust to different forearm sizes, making it possible to be worn on top of a jacket's sleeve if needed (1 & 2).
- The PIG zleeve comes with two reinforced high visibility color-contrasting dexterity enhancement pull tabs for rapid fail proof deployment, even under critical conditions where fine & complex skills deteriorate (3).
- The PIG zleeve displays bold ultra-light reflective vinyl lettering on both sides to provide rapid identification even during low light environments (4).
- The PIG zleeve is constructed with reinforced inner & outer cuffs for long lasting resistance and comfort (5).

PORTABILITY:

Lay the PIG zleeve flat and fold the left face behind the right face displaying the PIG label.

Fold it at the center towards the back, leaving the PIG label facing out.

Once folded, it easily fits with your wallet, or by itself in your front, back or chest pocket. Carry with the pull tabs facing up.

DEPLOYMENT*:

1. Pull out your PIG zleeve from its pull tabs, if you follow the portability instruction provided on the left of this section, your PIG zleeve will always be readily available to provide the lower pull tab first.
2. Grab the pull tab and extend the PIG zleeve to its entire form
3. Once fully extended, make a fist and insert it into the PIG zleeve while pulling in from the pull tab in a single motion till fully inserted
4. The PIG zleeve is readily deployed when you can see the "BANNER LETTERS" on the inside of the forearm and the outside of the forearm. Additionally, one pull tab should rest by the elbow (A) and another pull tab on the opposite portion by the inner joint of the elbow (B). Our PIG zleeve label should be facing down by the elbow (C).
5. For a greater tactical advantage and prompt identification, we recommend wearing The PIG zleeve on the non-weapon hand. This allows the user to stay on target with the weapon hand while keeping the non-weapon hand available to raise it, point for directions, etc. All while providing prompt identification with that non-weapon arm outfitted with our PIG zleeve.

NON-WEAPON
ARM
