A Delaware Corporation

## What we do

SFG is the authorized Lead Arranger for DST Globus Statutory Trust, which holds over Euro Four Trillion in cash and gold accounts at the top 10 banks internationally.

We seek to profit from these assets by partnering with innovative growth companies in the fields of:

- Advanced Agricultural Sciences
- Aerospace
- Affordable Housing
- Artificial Intelligence

- Carbon-neutral Transportation
- Carbon Capture Technology
- High Tech Security
- International Banking and Finance
- Renewable Energy
- Responsible Mining
- Sustainable Critical Infrastructure
- Water Reclamation & Desalination

If your company seeks to expand in these areas but lacks the necessary assets to qualify for letters of credit sufficient to move to a higher level of productivity, you may be our ideal client.

Your first step is to tell us who you are. This is a legal requirement for any financial consideration under “Know Your Client” rules and regulations. Please prepare an executive summary, a mutual confidentiality agreement, current financial statements, and a digital presentation (PDF) to introduce yourself. It is best if you are referred by your CPA or attorney. But if not, that is fine.

Once our team assesses your needs, we will set up an appointment with your legal team, accounting team, and leadership team to discuss how to best leverage our assets to assist you. In that meeting we will discuss the following:

- The Capital Structure of your business.
- Outstanding debt obligations.
- The Cash Flow prospects of your plan.
- The amount in cash-backed or gold-backed assets needed.
- Your liabilities under our Asset Enhancement Program.
- The mutual benefits of partnering with DST through SFG.
- Your upfront capital requirements, if applicable.
- Measuring your progress to assure success.

There is no fee for the initial consultation. However, a retainer will be required should we mutually choose to proceed. Please be prepared. Please be transparent. We are all here to win!
