

We believe...

- That confidentiality and privacy of our residents must be protected;
- That all people, regardless of race, orientation, beliefs or background are to be treated fairly and with respect;
- That learning comes from a wide variety of experiences and opportunities;
- That youth should be involved in decisions regarding their care;
- That regular contact with family and friends is important;
- That involvement in social, recreational, cultural, spiritual and community activities promotes healthy adolescent development;
- That a positive, caring environment fosters the well-being of youth.

“ Our goal is to help prepare each youth for a successful return to the care of parents or guardians or, alternatively, to prepare them for more independent living. ”

SIGN operates a co-ed community-based group home licensed for up to five adolescents ages 12 to 15.

Youth are referred through the Ministry of Social Services.

The group home provides a caring residential environment to assist the development and growth of youth.

It operates under the mandate of Saskatchewan's Child and Family Services Act.

Society for the Involvement of

Good Neighbours ADOLESCENT GROUP HOME

The adolescent group home provides a caring, nurturing home, supervised 24 hours a day, where the process of developing healthy relationships is recognized as important to the development of youth.

The ability to learn life skills, deal with personal issues and take responsibility for themselves is paramount to the provision of support to young people. They are encouraged to see each experience as an opportunity to grow and develop.

Youth are required to attend school in Yorkton or be involved in a supervised work experience.

They may also be active with various support services, clubs, or recreational activities in the community.

If you require more information about the SIGN Adolescent Group Home, call or email us. To protect the privacy of our residents, visits to the group home are by appointment only and are subject to a screening process.
