October 2022

SIGN Early Learning Centre is a licensed childcare and early learning facility.

- The Centre is licensed for 45 children, including 15 toddler and 30 preschool spaces.
- The program is structured to encourage and promote the development of the child, particularly in the areas of physical, emotional, cognitive, language, and social skills.
- While focussing on early childhood development, the centre strives to promote good old fashion fun where children learn through getting messy, using their imagination, outdoor fun, and realizing the value of play!

Our philosophy

To promote and encourage acceptance and participation where difference is valued, where the rights of all children are respected, and children benefit from opportunities for healthy development and learning.
