

Our desire is:

**For families to feel
empowered;
For children to feel safe
and loved;
For the next generation
to be impacted
in a positive way.**

*The best inheritance a
parent can give to his
children is a few
minutes of their time
each day.*

- Orlando A. Battista

Family Support

**306-782-1205
306-782-1209**

Family Support works to achieve the healthy development of the whole family unit.

We work to have children grow up in peaceful and loving homes where they feel safe and valued;

We work to develop healthy relationships inside and outside the home.

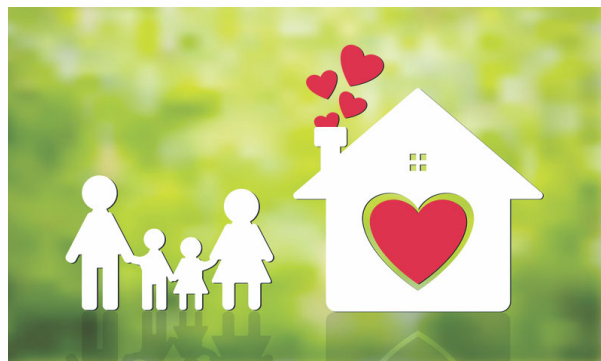

Parents desire the best for their children; no parent sets out to fail. However, in our fast-paced life with many demands on families, relationships can break down.

All families experience stress and challenges. Family Support wants to provide support and help to build new skills by teaching and modeling healthy relationships within the family unit.

We want to provide opportunities for families to be healthy and for parents to care for the people that matter most to them – their children!

We all need hope and encouragement in our parenting journey.

As our children grow and develop, we want to provide the very best care and compassion to allow them to grow to their full potential.

Our services are provided through in-home visits.

We provide tools and support to strengthen families, build on family strengths, and celebrate families in their diversity.

We assist families with:

- Positive parenting
- Communication skills
- Relationship building leading to stronger family bonds
- Connecting to community
- Child development
- Child safety
- Healthy teen relationships
- Coping skills
- Daily life skills
- Challenging behaviours
- Personal wellness
