Why Shred?

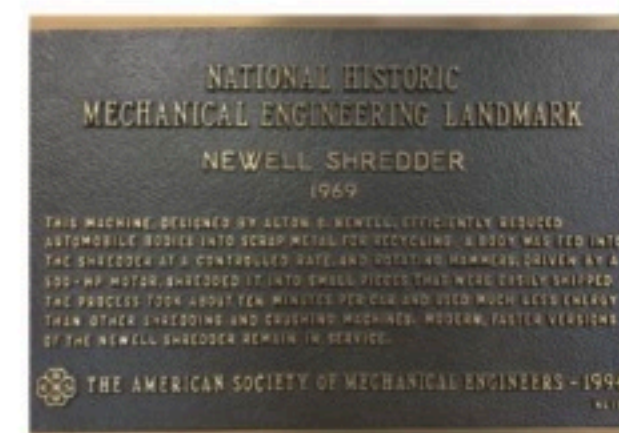

- Shredding adds Value

Why Newell?

- Newell is the original inventor for automobile shredders.
- Newell does not only design and manufacture, but also operates shredding plants more than 60 Years.
- Newell has built, delivered and licensed more than 800 Shredders, 20+ are more than 10,000 HP or 11,000 HP
- From small 400 HP to the largest more than 11000 HP.

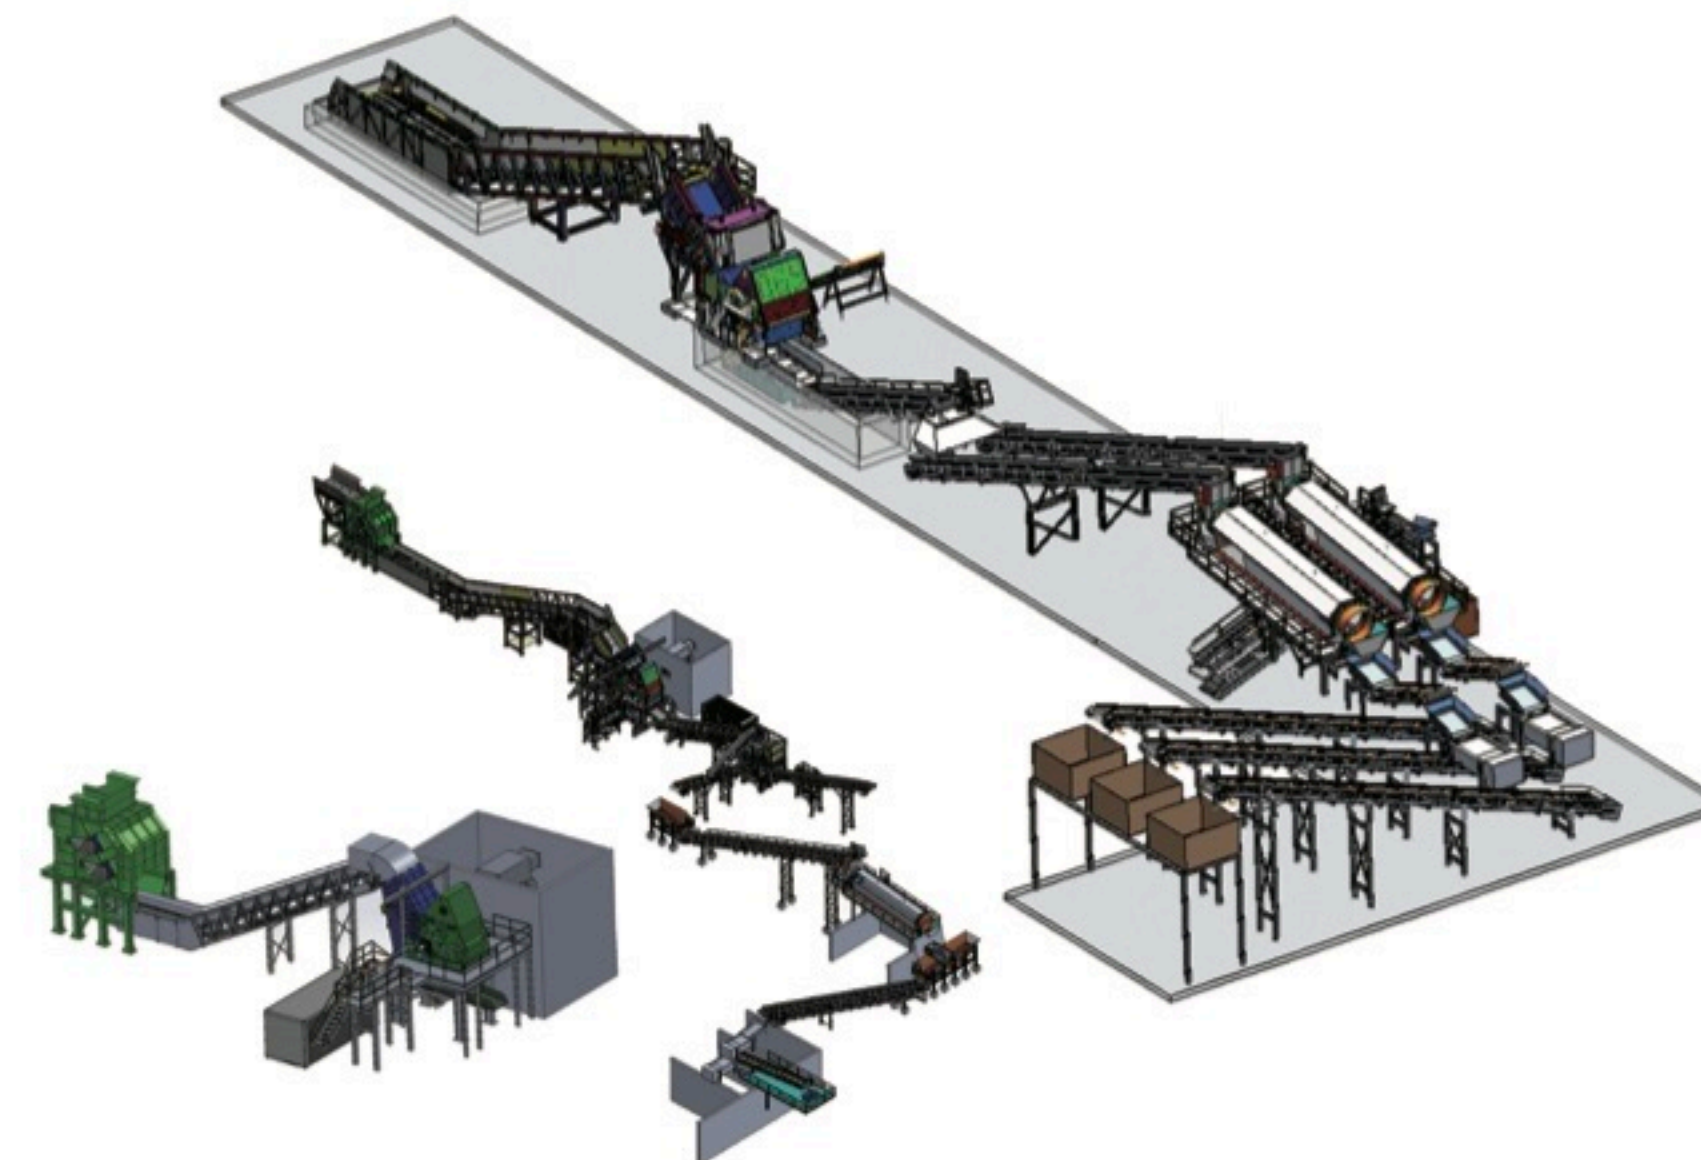

Actual experience operating shredding plants for profit,
Newell provides the lowest processing cost per ton,
which brings more profit to the operator!

The First Generation in 1960

Special Purpose Aluminium Recycling System

- We have supplied many shredding and separation plants to the world's leading secondary aluminum processors and recyclers.
- We have also operated 3 aluminum shredding plants ourselves: Eumet Frankfurt, Eumet Detroit and Newell Atlanta.
- All above make us the best equipment supplier for aluminum recycling.
