BEFORE YOU START...

The child reads the big, bold type. This contains the most common words, words that can be decoded or words containing the sound being learnt.

The text in the corner is just for the adult or reading partner. This is to develop the child's vocabulary and promote discussion.

i - e

Say "i-e" (as in "ice").

Say it **quiet**, say it **loud** and say it **silly**! Trace the letters with your finger... **Let's go!**

*There are different species
of penguin. This is an
Adelie penguin.*

I like life on the ice.

Macaroni penguins have a crest of bright yellow feathers to display to other penguins.

I like to stride with pride.

*Chinstrap penguins use their tummies
like a sledge to move over the ice,
back to the ocean.*

I slide on the ice then dive!

Leopard seals lay in wait to ambush emperor penguins. Their teeth are very sharp!

Open wide! It is time to hide!

Musk ox have thick fur that enables them to stay out even in wild Arctic storms!

This musk ox wants to hide.

*Polar bears are born in a den under the ice,
protected from the Arctic storms above.*

It is nice under the ice.

Walrus are clumsy on land, but glide with great agility in the chilly water as they search for shellfish.

I like to glide under the ice.

Polar bears use their amazing sense of smell to seek out food. There is little to eat on the ice.

He is on the hunt his prize.

Harp seals haul themselves on the ice to rest. They always have an ice hole near through which to escape.

I like to rest on my side.

Seal pups, born on the ice, must be camouflaged or they could be a meal for a polar bear!

The pup is as white like ice.
