**Safety:**

is at the core of everything we do here that is why BGM have implemented our own initiative to keep everyone safer we call it – THINK SAFE! WORK SAFE! We proudly display this logo on our PPE to remind all of our workers every single day of safety and the high importance of getting everyone to home the same way they left home this includes our clientele and our employees and anyone involved in the project.

“With access to over 50 full time personnel at any given time BGM Contractors can tackle even the largest most complex Projects in Australia -

# OUR HISTORY

CELEBRATING  
**50** YEARS  
1969 - 2019

# SINCE 1969

In the late 1960's,

Penrith locals Barry Gunton and Margaret Gunton poured their energies and entrepreneurial spirit into establishing a business which would come to be known as BG Plumbing. Unafraid of hard work, the couple's down to earth manner, honesty and transparency combined with their quality workmanship soon saw their business thrive.

Under Barry's Leadership BG Plumbing continued to grow, including investing in the expansion of its trade services in the 1980's. It was during this time that Barry was thrilled to welcome his eldest son Grahame into the firm, seeing him join as one of their many top tradespeople. Barry was equally delighted when, following his retirement in 1997 Grahame and his wife Michelle took control of operation, Re-launching the brand as B&G Enterprises (NSW) Pty Ltd in 2000, Transforming the company into a multi-disciplined multi Trade enterprise comprising of Plumbing, Electrical & Carpentry

Today, this strong family business continues to flourish as it enters into its 50<sup>th</sup> year of business and is now a 3<sup>rd</sup> Generation Australian owned and operated company with Grahame & Michelle's son Matthew branching off into the civil & underground construction field with BGM Contractors.
