A black and white photograph of a stage microphone on a stand, positioned on the left side of the frame. In the background, there are several bright stage lights creating a hazy, atmospheric effect. On the right side, there is a large, semi-transparent teal circle with a white border. Inside this circle, the text "What do we stand for?" is written in white.

What do we stand for?

Customer Obsession

It all starts with a relentless dedication to making our customers successful.

Integrity

Respect, accountability, and a desire to
always do the right thing.

Excellence

Commitment to quality, reliability
& responsiveness.

Innovation

Listen, learn, and push
the boundaries.

A man in a dark suit is seen from behind, standing on a curved staircase with a metal railing. He is looking out a large, multi-paned window that fills the right side of the frame. The wall to the left is made of light-colored bricks. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. A large, semi-transparent red circle is overlaid on the right side of the image, containing the text.

Who are our customers?

Large Enterprises

Globally dispersed companies with minimum 1,000 employees and multiple office locations.

LET'S GET STARTED.

Our Tone of Voice

Mission Statement

Give world-class organizations the ability to use business broadcasts to showcase their leadership, bring out the best in their talent, and inspire their workforces to drive their business forward.

Tone of Voice

Our signature writing style is professional yet approachable. Whenever possible, we write in the second person. MediaPlatform should always use camel-case capitalization when viewed apart from our logo, and should never ever be listed as 'Media Platform'. Ever.

Logo Usage

Our logo is the touchstone of our brand and one of our most valuable assets. We must ensure proper usage.

The preferred way to use the logo is over a white/light background. Every attempt must be made to do this.

If the logo must be placed on a dark background or color options are limited then the logo can be knocked out.

Please observe the clear space around the logo indicated by 'x' in the diagram to maximize visual effectiveness. Nothing should intrude into this specified clear space.

[Download Logo Kit](#)

Icon Usage

The icon is used in product UIs, when social media icons are used and as browser ‘fav icons.’ The icon can lie on most colors, but the preferred background is navy blue. It can be presented in either round or square format. Avoid laying the icon over busy backgrounds that obscure the icon’s legibility.

MediaPlatform

4

Don't

1. Change logo's orientation.
2. Add extraneous effects to the logo. This includes but is not limited to: bevel and emboss, lighting effects and drop shadows.
3. Place the logo on busy photography.
4. Change the logo colors.
5. Attempt to recreate the logo.
6. Make alterations, additions or substitutions to the words and or colors contained in the logo.
7. Use the logo as a repeated pattern, "wallpaper" or other decorative device.

Typography

Typography: Our Primary Font

Typography is a key element to communicate a unified personality. We have selected Roboto as our primary communication font for print, web, and our applications.

Roboto is easy to read both online and in print. When writing headlines use the light weight version.

When using Roboto for body copy, use the regular weight variation. Mixing weights in headlines is not okay.

ROBOTO LIGHT

Typography: Alt. Font

For communications that prohibit the use of Roboto, we use Arial as our font of choice.

There are multiple weights of this font and Arial is readily available on most computers.

Examples of use would be :

- Email Signatures
- Shared PPT files
- Word Documents

A person is silhouetted against a sunset sky, standing on a dark, rocky shore. The person's reflection is visible in the calm water in the foreground. A large, semi-transparent orange circle is overlaid on the right side of the image, containing the word "Colors" in white text. The circle has a subtle drop shadow and is bordered by thin white lines.

Colors

Our colors are what gives us our personality. We're bright, dimensional, and bold.

1. Primary Brand Palette

Use throughout to reinforce the MediaPlatform brand as a whole.

2. Product Family Colors

These colors support the product branding for MediaPlatform Broadcaster, Manager, Delivery, and Analytics.

2. Supporting Color Palette

Use these colors to provide visual contrast in all marketing materials and across all products. Orange is used to draw attention to important elements.

The background is a close-up, artistic photograph of a camera lens. The lens elements are visible, showing a series of curved, metallic-looking surfaces. A prominent, bright, circular light flare is visible on the right side of the lens. The overall color palette is dark, with shades of grey, black, and a hint of purple/pink from the light flare. A large, semi-transparent teal circle is overlaid on the left side of the image, containing the word "Photography" in white text.

Photography

Photography

Look + Feel: Images must reflect the values, quality, and personality of what MediaPlatform is about.

 [Download Photo Assets](#)

Do

Showcase technology and people. Keep imagery inspirational, and well crafted. Photos of people should feel unposed and spontaneous. Incorporate accent colors which reinforce the brand color palette whenever possible & be aware of how images flow when placed next to each other with similar tones and colors.

Don't

Showcase busy content that is messy or feels chaotic. Or use overly commercialized photos of models with stiff poses and lots of retouching or compositing. Don't use imagery that feels disjointed with MediaPlatform's ethos.

A graphic consisting of a large, light blue circle. Inside this circle is a smaller, darker blue circle. Within the darker blue circle is a thin white ring, and inside that is a solid dark blue circle. The word "Collateral" is written in white, bold, sans-serif font in the center of the innermost dark blue circle.

FOLOZ Assets

Collateral

Maintaining the continuity of our brand is crucial to create a consistent message for our clients and employees.

To keep consistency, we have provided templates that can be used as needed.

When compiling collateral pieces that illustrate our products in use by a company, we utilize the 'fake' company 'Foloz'. Foloz brand assets should not be used interchangeably with MediaPlatform assets.

**MediaPlatform®
Bridge**

MediaPlatform® Bridge is an intuitive, cloud-based solution that lets admins enhance live events by allowing remote presenters to join webcasts using mainstream video conferencing tools. Bridge converts video from any SIP-based video conferencing endpoint or bridge, including those from leading providers such as Cisco, Polycom, Zoom and Pexip, into a premium source for live webcasts.

Video Management

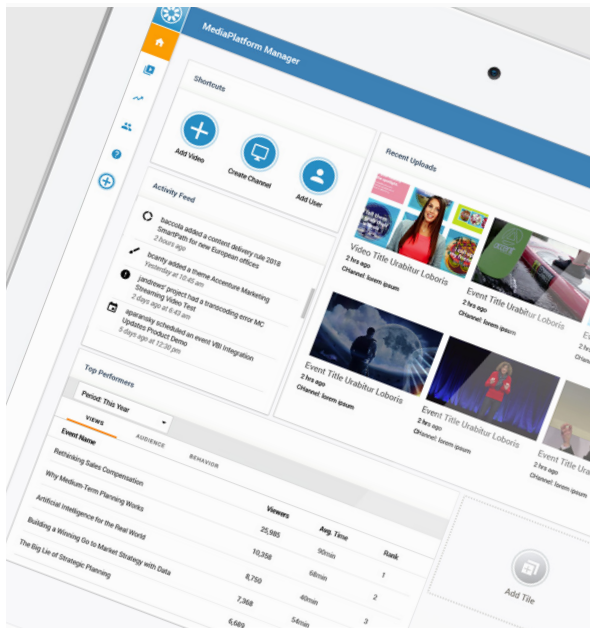

MediaPlatform's video management portal provides a central destination where organizations can publish and manage all of their recorded video assets. Viewers can easily search through vast video libraries to quickly find the information they need, while admins set viewer access and content governance policies.

MediaPlatform provides the industry's most advanced corporate YouTube, helping organizations leverage streaming media to improve corporate communications, enhance knowledge transfer and informal learning.

Video Delivery

MediaPlatform's distribution-agnostic delivery capabilities let companies use the multi-modal network technologies that are common in large organizations. MediaPlatform can leverage peering solutions, WAN optimization and HTTP caching appliances such as Riverbed for live split streaming and caching on-demand video, VDI environments such as Citrix and third-party CDNs such as Akamai. For bandwidth-challenged locations, MediaPlatform offers its own enterprise content delivery network, MediaPlatform® SmartEdge, for efficient delivery of live and on-demand video. SmartEdge nodes provide intelligent video caching, content prepositioning, and delivery of multiple formats and ABR (adaptive bitrate) to provide optimal video quality with minimal network impact.

**MediaPlatform®
Edge**

MediaPlatform® Edge is a software or appliance-based solution for delivery live video and caching video ondemand that creates a pervasive video distribution solution – or enterprise Content Delivery Network (eCDN) – across the enterprise.

Analytics

MediaPlatform's analytics suite that provides actionable, real-time insights into live events and overall viewing trends for video archives and libraries. Its powerful analytics platform continues to evolve to give customers a 360 degree view of exactly how their streaming video initiatives are performing. From real-time views that show precisely what each end viewer is experiencing during a live event, to audience-wide characteristics and viewing behavior for recorded events, only MediaPlatform offers as broad a range of insights for live webcasting leaders.

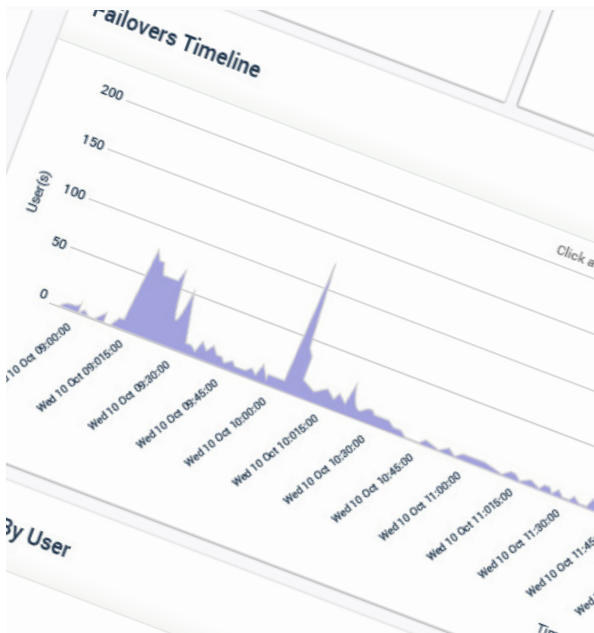

MediaPlatform®
Video Business
Intelligence

MediaPlatform® Video Business Intelligence (VBI) gives webcast stakeholders measurable and quantifiable metrics that prove that end viewers received a quality video experience and that video was effectively delivered across the corporate network as intended. VBI gives technical teams the ability to monitor and troubleshoot live event issues in real time, rather than relying on support calls or anecdotal feedback. Post-event, Network and IT teams use its massive data collection capabilities to fine-tune SmartPath delivery rules, and to identify and shore up network weak spots prior to future webcasts.
