

World Cogeneration Day Newsletter 2026 Q1

This newsletter includes a curated collection of top stories from [World Cogeneration Day](#), and the global media, showcasing the latest in Combined Heat and Power (CHP). Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tips.

Hello Friends of World Cogeneration Day -

See the latest global CHP news and upcoming events below.

THE LATEST NEWS IN COMBINED HEAT AND POWER

[Should Your Packaging Facility Make Its Own Electricity?](#)

Packaging Digest

One of the technologies for qualifying as a QF is **cogeneration** or, as it is often called, **combined heat and power (CHP)**. If PURPA is the cake, the ...

[Capstone Green Energy to power 6.6MW biogas project at North Carolina facility](#)

Bioenergy Insight

(Capstone), a provider of microturbine energy solutions, has announced the completion of its 6.6-megawatt **combined heat and power (CHP)** system at a ...

[Co-generation for food processing: Why CHP is key for this energy hungry sector - Just Food](#)

Examining **Combined Heat and Power (CHP)**, or **co-generation**, as a viable energy generation solution for the food and beverage industry has never ...

Participants are praising World Cogeneration Day! "Good Stuff!" is the feedback shared by many participants. "World Cogeneration Day is elevating the awareness of CHP in the world and providing recognition," according to one participant, highlighting the event's positive impact on Combined Heat and Power (CHP) technology. World Cogeneration Day Newsletter 2026 Q1

This newsletter includes a curated collection of top stories from [World Cogeneration Day](#), and the global media, showcasing the latest in Combined Heat and Power (CHP). Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tips.

[Dalkia to develop 8-MW biomass plant in Poland | Bioenergy Insight Magazine](#)

Once operational, the plant will strengthen Edison Next Poland's **combined heat and power (CHP)** capabilities and contribute to the **company's** ...

[Gas engines arrived at Elbląg power plant - ceenergynews](#)

The new **cogeneration** system at Elbląg **CHP** is set to launch in 2026.

[Micro CHP Market Fuels Decentralized Energy and Sustainability - TimesTech](#)

... **energy** source, following the principle of **cogeneration**. In this process, the system converts fuel such as natural gas, biogas, or hydrogen into ...

[Capstone Green Energy Pre-Announces Breakthrough Quarter with Impressive 47 ... - Business Wire](#)

The anticipated year-over-year growth reflects market momentum for distributed **generation** and the **Company's** ability to execute on product shipments, ...

[Ministry of Economic Affairs has Combined Heat and Power Act on the agenda - energate messenger](#)

New BKWK president. The new president of the German **Cogeneration** Association BKWK (Bundesverband Kraft-Wärme-Kopplung), Andreas Rimkus, warned against ...

[Novi Sad plans to build waste-to-energy cogeneration plant](#)

Balkan Green Energy News

Surplus energy could be stored within the future solar thermal system. Serbia's capital, Belgrade, already has a **combined heat and power plant (CHP)** ...

[Klitschko tells about unique system of reserve energy supply: 7 mini-CHPPs to be put into ...](#)

ukranews.com

In particular, 6 new mini-CHP3s (**combined heat and power plants**) will ... These are small, compared to the existing giants, **cogeneration** facilities that ...

[Veolia Unveils a Major Project to Phase out Coal in Poland to Support European ... - Business Wire](#)

Gas-fired, high-efficiency **combined heat and power plants** respond more ... The company produces district heat and electricity through **cogeneration** and ...

[Quantum Data Energy - 10 MW CHP Project Significant Progress - Research Tree](#)

Quantum Data **Energy** PLC (LSE: MAST) is a UK -based developer, operator and owner of flexible **generation power** assets. The **Company** has deep expertise ...

Participants are praising World Cogeneration Day! "Good Stuff!" is the feedback shared by many participants. "World Cogeneration Day is elevating the awareness of CHP in the world and providing recognition," according to one participant, highlighting the event's positive impact on Combined Heat and Power (CHP) technology. World Cogeneration Day Newsletter 2026 Q1

This newsletter includes a curated collection of top stories from [World Cogeneration Day](#), and the global media, showcasing the latest in Combined Heat and Power (CHP). Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tips.

Energy Savers

- **Change Your Filters, Love Your Equipment!**
 - Filters protect equipment, and a clean one lets your system breathe easy. Dirty filters make your system work way too hard and waste energy.
- **A Quick Thermostat Check**
 - Give your settings a friendly check when the seasons change. Make sure they're set to the most energy efficient point for the time of year.
- **Treat Your System to a Tune-Up**
 - Schedule a professional check-up once a year. They'll make sure your heating and cooling system is running at its absolute best efficiency!
- **Know When to Say Goodbye to Old Equipment**
 - Time for an upgrade if you notice constant repairs, strange noises, or poor energy performance. A new system can save you a bundle on energy bills.

Personal Wellness & Mood Boosters

- **Fuel Up with Seasonal Recipes**
 - Share those delicious, healthy recipes that fit the season! Eating fresh, seasonal food is a wonderful boost for your wellness.
- **Welcome Natural Daylight**
 - Open the curtains and let the sunshine in! Getting fresh air and natural light is an instant mood booster.
- **Stay Social and Connected in person**
 - Make time for small gatherings, a video chat, or a simple coffee date. Regular social interaction keeps your mind happy and engaged.
- **Get Your Body Moving**
 - Find an activity you enjoy and move those muscles! Physical activity is key to a healthy body and a clear mind.
- **Mindfulness and Gratitude Break**
 - Take just a few minutes each day to notice the small things and give thanks. This simple practice can significantly reduce stress and boost appreciation.

Your energy is expensive! Spend it wisely.

UPCOMING EVENTS [\(please let us know of any upcoming events that we should share\)](#)

Participants are praising World Cogeneration Day! "Good Stuff!" is the feedback shared by many participants. "World Cogeneration Day is elevating the awareness of CHP in the world and providing recognition," according to one participant, highlighting the event's positive impact on Combined Heat and Power (CHP) technology. World Cogeneration Day

We were pleased to commemorate the global significance of cogeneration and Combined Heat and Power (CHP) with this year's World Cogeneration Day. More than half a million participants engaged in events across the globe to mark the occasion. To ensure you continue receiving our updates, kindly check your spam or junk folder for our communications and add our email address to your contacts list. This will help guarantee that future emails are delivered to your inbox. **#WorldCogenerationDay**

Looking Ahead: World Cogeneration Day 2026

Each year, participation in World Cogeneration Day grows. Your high-quality social media engagement, emails, and financial contributions enable us to promote cogeneration as a leading energy solution globally.

How You Can Contribute

- Share posts about World Cogeneration Day on your social media platforms.
- Use the hashtag #WorldCogenerationDay in all related posts to enhance visibility and global reach.

Together, we can raise broader awareness about the benefits of cogeneration energy.

If you have made an "innovation" in cogeneration in the prior year, please send it to us to put on the website for all to see and share; innovation is what drives Combined Heat and Power (CHP) forward.

In order to increase your visibility, globally, please post your notice of celebration on social media channels and highlight your company and its successes or new innovations! Use hashtag **#WorldCogenerationDay**. Also, please share this news with your director of communications, marketing and ALL your media contacts.

Participants are praising World Cogeneration Day! "Good Stuff!" is the feedback shared by many participants. "World Cogeneration Day is elevating the awareness of CHP in the world and providing recognition," according to one participant, highlighting the event's positive impact on Combined Heat and Power (CHP) technology. World Cogeneration Day Newsletter 2026 Q1

This newsletter includes a curated collection of top stories from [World Cogeneration Day](#), and the global media, showcasing the latest in Combined Heat and Power (CHP). Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tips.

<https://linktr.ee/worldcogenerationday>

Commence construction, document progress through photos and videos, commission, and activate new Cogeneration Systems in alignment with World Cogeneration Day to optimize media visibility.

Finalize agreements for CHP installations near World Cogeneration Day to maximize social media engagement.

Announce employee recognition and career advancements in proximity to World Cogeneration Day as an opportunity to formally acknowledge team members and client appreciation across social platforms.

Government initiatives should involve prominent political figures to steer smart energy policy and promote the inclusion of CHP within a diverse and efficient energy landscape.

Media campaigns should leverage contemporary channels, utilizing innovative approaches for social media and video content.

Industry efforts are encouraged to connect leading companies with information regarding CHP technology, fostering adoption and learning.

World Cogeneration Day brings together businesses, contractors, nonprofits, and educational institutions to promote CHP for its competitiveness, cost savings, reliability, and environmental benefits. Participants focus on educating the public and policymakers about CHP's advantages. CHP can be more than twice as efficient as separate heat and power production, lowering energy costs and emissions, especially in facilities like data centers.

Setting New Records

Social media, email, events, celebrations, and financial support all help meet the educational and outreach goals of this annual cogeneration celebration. Each year, our factual messaging reaches more audiences through marketing platforms. If you have a story, case study, or event, please submit it for website publication—news submissions are always welcome.

Participants are praising World Cogeneration Day! "Good Stuff!" is the feedback shared by many participants. "World Cogeneration Day is elevating the awareness of CHP in the world and providing recognition," according to one participant, highlighting the event's positive impact on Combined Heat and Power (CHP) technology. World Cogeneration Day Newsletter 2026 Q1

This newsletter includes a curated collection of top stories from [World Cogeneration Day](#), and the global media, showcasing the latest in Combined Heat and Power (CHP). Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tips.

Increasing Awareness

World Cogeneration Day receives consistent positive feedback and recognition from participants. We appreciate your support, which motivates us to reach new milestones annually. Our mission is to offer clear, informative celebrations highlighting cogeneration innovation, like its use in Data Centers.

Your Donations will Help:

- o Expand reach of cogeneration messaging across additional social media platforms
- o Engage a broader international audience
- o Accelerate progress compared to prior years
- o Increase the frequency of speakers, webinars, and virtual events
- o Enhance presence through targeted blogs, tweets, posts, and overall digital footprint
- o Strengthen our reputation for excellence
- o Enable distinguished visibility online

Donate Now

Support our outreach efforts by making a monetary donation. To contribute, please click the "Donate Now" button on our website or utilize the PayPal link below; all major credit and debit cards are accepted. Donors will receive a receipt for their records. We appreciate your generosity and commitment.

Donate in Honor of a Leader in Cogeneration

Thank you for supporting World Cogeneration Day.

Regards,

Jim Scherrer & Steve Krug
