Notes to remember

Change Air Filters Regularly - Filters protect equipment. Dirty filters make systems work harder and use more energy.

Check Thermostat settings - When seasons change, make sure settings are still appropriate for the lowest energy.

Schedule a tune-up - Have a professional get the best energy performance out of the system.

When to replace and upgrade equipment - frequent repairs, strange noises, or poor energy performance.

Recipes - share seasonal recipes for wellness.

Get natural daylight - Get fresh air and boost your mood.

Stay connected - make time for small gatherings and social interaction.

Move your muscles - get some physical activity.

Practice mindfulness and gratitude - take a few minutes each day to give thanks and appreciation.

UPCOMING EVENTS (please let us know of any upcoming events that we should share)

Save the Date for the 2025 National Summit! <https://chpalliance.org/2025-chp-summit/>

networks: [Twitter](#), [LinkedIn](#) Tag your social media posts using hashtag #WorldCogenerationDay. See <https://linktr.ee/worldcogenerationday> for all social media.

- 1) Break ground, show progress photo/video, commission, and startup your new Cogeneration Systems around World Cogeneration Day for maximum media attention.

- 2) Sign your new deal for a CHP Installation around World Cogeneration Day for maximum social media outreach.
- 3) Award employee recognition and advancement announcements around World Cogeneration Day to celebrate your people and client appreciation on social media.
- 4) Government campaigns that engage significant political leaders to guide smart energy policy, and include CHP in a diverse and efficient future.
- 5) Media campaigns across new media, using creative ideas for social media and video.
- 6) Industry campaigns that engage leading businesses to learn more and adopt CHP technology.

World Cogeneration Day is organized by a coalition of business, contractor, non-profit, and educational institutions who share the vision that CHP can make global businesses more competitive, reduce energy costs, enhance grid reliability, and reduce emissions. Participants in World Cogeneration Day focus on improved educational outreach options for CHP thus increasing demand for these valuable technologies. Further, our outreach efforts help to make citizens and policymakers more aware of CHP and ensure that their economic, reliability, and environmental benefits are recognized. We'd like to help the world appreciate that CHP can be more than twice as efficient as the separate generation of heat and electricity and that this greater efficiency translates to both lower energy costs and reduced emissions.

Setting New Records

Your social media posts, e-mail messages, events, celebrations, and financial donations help achieve the educational goals and outreach objectives for this one-day celebration of the benefits of cogeneration, and the people who make it happen. Each year your positive, factual messages reach more people and through our social

media and marketing channels we hope to triple our upcoming results with a bigger megaphone. If you have a Case Study, story, or event that you are celebrating, please send it to us to post on the web site. It's not too late.

Your Donations will Help:

- o Amplify the cogeneration message on more social media channels
- o Bring a wider global audience to the party
- o Accelerate our success from the prior year
- o Increase the number of speakers, webinars and Zoom Events
- o Target the blogs, tweets, likes, posts and social footprint
- o Build on our reputation for excellence
- o Help us Stand Out within a crowded internet

Increasing Awareness

People love this "Day Celebration" of Cogeneration and have given accolades, testimonials and pats on the back. We appreciate your kind words and contributions; they give us the motivation to break all records this year. We help solve the problem of misinformation and faulty messages by bringing light, energy, and fun to a celebration of the world of cogeneration; Cogeneration Reimagined.

Donate in Honor of Someone Who Leads the way in Cogeneration.

Do you know someone who deserves to be recognized and honored for their work in the field of cogeneration leadership? Do you wish to honor and recognize a "future leader" of Cogen; the Next Generation? Consider donating in their honor. To donate, simply press the "[Donate Now](#)" button on the web site or by using the PayPal link below using any credit/debit card. A receipt is provided. We thank you for your generous donation.
