Nottinghamshire/Derbyshire PIP maintenance prices 2026

The prices below are a guide based on one full-size football pitch located in Nottinghamshire or Derbyshire. Discounts may apply to multi pitch sites.

All prices are subject to VAT.

Verti-Draining - £500

Aeration of the whole pitch with 20-24mm tines to depths up to 10", unless other requirements specified.

Verti-Quake - £500

Variation on aeration using rotating steel blades to cut through the soil, creating a wave action which shatters compaction to a depth of up to 10".

Slitting - £250

Quick aeration with minimal disruption to a depth of 8".

Fertiliser Application - £450

Price for application at 35g/m² of time of year specific, controlled release sportsfield grade fertiliser. Various different options available for fertiliser quality and longevity can be quoted.

Weed Spraying - £250

Fully licensed and insured spray application of high quality, amenity specific selective weed killer.

Overseeding - £550

Disc seeding in two directions, with extra passes where required (in high use areas). Seed not included but can quote options (£85 per 20 kilos) depending on rate

Top Dressing Application + Brushing In - £15 per tonne

Does not including top dressing but can be quoted for depending on requirements (approx.£35-£45 per tonne, 20 – 100 tonnes required).

Scarification - £500 per direction

Various options available to help remove thatch and unwanted grasses.
