

**Worldwide
Facilities®, LLC**

Need comprehensive insurance coverage for complex construction risks?

From general contractors to developers, residential and commercial risks to roofing, we have the market reach and strong carrier relationships to help place coverage for a wide range of construction risks – including complex and hard-to-place exposures.

The construction industry has been a target class of business for Worldwide Facilities since its inception in 1970. Worldwide Facilities has developed unsurpassed expertise in construction insurance and maintains relationships with key markets specializing in the construction business, from small artisan contractors to blasters and demolition. We have in-house authority on many classes.

Some of our coverage features include:

- Standard ISO Occurrence and Claims Made Forms

- Defense Outside the Limits
- Extended Completed Operations Coverage (by Statute)
- Per Project Aggregates
- Multi-Year Terms with Annual Aggregate
- Reinstatements
- Project-Specific Policies including Extended Completed Operations
- Blanket Additional Insured Endorsements (including CG 2010 11/85)
- Employee Benefits Liability
- Blanket Waivers of Subrogation
- Severability of Interests
- Primary and Non-Contributory Wording
- Stop Gap Coverage in Monopolistic States

If you have a new or renewal construction risk that you are struggling with, we are here to help. Speak with our East Coast Construction Leader Today.
