Cyber Liability Coverage Built Around Your Client's Needs

Our cyber liability experts have an in-depth understanding of markets that are best suited for specific classes of business and industries. From large to small operations, we can help you tailor a policy that addresses your client's individual cyber liability coverage needs.

Available Coverage Features:

- * Breach Response Costs
- * Business Interruption/Income Replacement
- * Computer Forensics
- * Credit Protection
- * Crime
- * Crisis Management/PR Expenses
- * Damage
- * Data Breach
- * Data Restoration Expenses
- * Dependent business interruption with system failure
- * Extortion Expenses

- * Funds Transfer Coverage
- * Hacker
- * Identity Monitoring Expenses
- * Network Security and Privacy Liability
- * Notification Expenses
- * Online Media Liability
- * Phishing
- * Reputational Harm
- * Social Engineering
- * System Failure

SERVICES BEYOND THE POLICY:

Active Risk Management: Taking a hacker's perspective, we find your vulnerabilities before they do, and work with you, year-round, to control them.

Risk Assessment: Each quote includes a detailed assessment of security strength and financial exposure. Quarterly updates help your clients stay on top of a fast-changing risk.

Incident Management: Our experts are here for you to help minimize loss, so you can get back on your feet as soon as possible.

On-line Quoting platform available
