

To whom it may concern,

Pursuant to the Oklahoma Open Records Act (51 O.S. §§ 24A.1 et seq.), I respectfully request the opportunity to inspect the following public records:

1. All ordinances, resolutions, minutes, or other official actions vacating, abandoning, or closing any streets or alleys within:
 - Southside Addition to the City of Shidler
 - Original Town (OT) Shidler
2. All records reflecting any authorization, permission, agreement, license, lease, or grant of use allowing private individuals or entities to occupy, enclose, fence, or otherwise use any platted streets or alleys within the above-referenced areas.
3. Any maps, plats, or replats adopted or approved by the City that modify, remove, or alter originally platted streets or alleys within these areas.
4. Any policies, ordinances, or written guidance governing the City's treatment, maintenance, or enforcement of platted but unopened or unused streets and alleys.

This request is intended to identify any official actions affecting platted public rights-of-way and does not require the creation of new records.

This request includes records maintained in both paper and electronic form.

If any portion of this request is unclear or requires narrowing, please let me know so that I may clarify.

I prefer to inspect responsive records in person and will make my own copies as permitted by the Open Records Act. Please advise when the records will be available for inspection.

Thank you for your time and assistance.

Respectfully,

Travis Ray
