

To whom it may concern,

I am writing to respectfully follow up on my Open Records request dated February 23, 2026, submitted pursuant to the Oklahoma Open Records Act (51 O.S. §§ 24A.1 et seq.), regarding records related to the City's code enforcement initiative.

I understand that locating and compiling responsive records may require some time. I would appreciate any update you may be able to provide regarding the current status of this request, or an estimated timeframe for when the requested records may be available.

If it would assist the City in minimizing staff time or copying costs, I would be happy to inspect responsive records in person and make my own scans or photographs as permitted by the Open Records Act.

Thank you for your time and assistance.

Respectfully,  
Travis Ray
